87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

307 Secretary of State

The Office of the Texas Secretary of State (Agency) is organized in five functional divisions. The Executive Office provides oversight over all agency programs and activities. The Administrative Services Division is responsible for fiscal operations, human resources, and procurement. The Elections Division administers all election-related activities, including voter registration, primary election funding, and the publication of constitutional amendments. The Information Technology Division provides data processing services and technical support for all agency programs. The Business & Public Filings Division, which includes the Business Entities, Uniform Commercial Code and Government Filings Sections, performs the public filing and public information functions of the Agency and also commissions all notaries public for Texas. The Protocol and Border Division receives and assists international officials and monitors Texas-Mexico border issues.

Business Entities

Goal A – Information Management. Provide and Process Information Efficiently; Enforce Laws/Rules. The Agency is the filing office and repository for business and commercial documents required or permitted by various state laws to be filed with the Agency. The Business and Commercial Filings section reviews and processes documents relating to the formation and registration of business organizations that include Texas corporations, professional associations, limited liability companies, limited partnerships, and limited liability partnerships, and responds to requests for information relating to such documents and entities.

The Agency receives filings in paper and electronically via its XML Web Services and SOSDirect. Electronic filing by customers enables the Agency to maximize its resources when processing documents and enhances customer service by improving turnaround time and accuracy. In fiscal year 2019, approximately 85% of all Uniform Commercial Code (UCC) filings and 99% of UCC orders were submitted and processed via SOSDirect and XML Web Services. That same fiscal year, approximately 94% of business copy and certificate orders were processed through SOSDirect, and approximately 74% of domestic formation filings were processed electronically.

In fiscal year 2020, the Agency introduced and released SOSUpload, a new online service that offers an alternative means of submitting business entity documents to the Agency. SOSUpload permits a customer to electronically upload and transmit a filing that is not currently available through SOSDirect. The Agency will continue to investigate means and incentives to promote and encourage e-filing.

The efficiency with which filings and information requests are processed by the Agency is dependent upon the employment of technology consistent with the Agency's business needs. The core business and public filings system was developed in the 1990s and deployed in 2001, and has reached its end of life. While incremental technology upgrades have been incorporated into the core system to ensure the system remains somewhat reliable and supported, a next generation system is needed to enhance efficiencies, streamline work processes, and reduce costs. The replacement system is identified in the exceptional item section of the legislative appropriation request (LAR).

Uniform Commercial Code

The Agency is also the central filing office for the receipt, filing, indexing and recordation of financing statements and other documents including the maintenance, certification, and indexing of records and registration filings submitted by athlete agents, health spas, credit service organizations, automobile clubs, business opportunities, debt collectors, dental service organizations, telephone solicitors, and solicitors on behalf of veterans and public safety organizations. All accepted documents are processed in a timely manner, recorded, filed, and made available to the public through SOSDirect.

307 Secretary of State

Government Filings

The Government Filings section receives all of the documents submitted by and on behalf of governmental units and public officials, including notices filed for publication in the Texas Register, notary public commissions, issuance of apostilles (a form of certification that is recognized by foreign countries under treaty) and certificates to authenticate the authority of state and local officials and notaries, gubernatorial appointments, and other miscellaneous submissions. Various state statutes designate the Secretary of State (SOS) as a process agent, authorizing the SOS to accept service on behalf of another person (i.e., substituted services of process). The Government Filings Section also accepts service of process on behalf of the SOS, publishes the Texas Register, the Texas Administrative Code, and Open Meeting Notices through the Internet free of charge. The Agency provides access to the historical database for state agency rules, email notification of Agency filings, and the database search engine.

e-Notary Public Applications

The e-Notary Public Application program attracts an increasing number of filings. About 91% of notaries public now apply for their commissions and renewals electronically with ten bonding companies currently participating in this program. E- Filing improves turn-around time and eliminates manual check processing because payments are also electronic. The Agency reviews electronic applications in the same manner as paper applications. In addition, the Agency allows a notary the option to receive commission and educational materials by email or by traditional postage-paid mail. Currently, approximately 91% of all commissions are sent to notaries by email saving both postage and printing costs. The Agency also provides online services to Texas notaries. A notary may view an online educational video, request a replacement commission for a lost or misplaced commission, or submit a change of address.

Elections

Goal B – Administer Election Laws. Maintain Uniformity and Integrity of Elections; Oversee Election Process. The Agency assists local election authorities in carrying out their duties and ensures the uniform application, operation, and interpretation of state election laws. The Agency dedicates a toll-free telephone hotline to advise election authorities. In addition to day-to-day assistance, the Agency conducts regular training opportunities through seminars, regional workshops, Election Day handbooks, online poll worker training, and volunteer deputy registrar training materials. The Agency conducts numerous voter education programs, such as a voter education program developed to explain the voter registration process, educate voters on their voting rights and responsibilities, and a voter centric website at votetexas.gov that is devoted to educating and informing voters regarding all aspects of the voting process. The Agency certifies the general election ballot, the constitutional amendment ballot, and prescribes official election forms.

Elections Improvement

In compliance with the Help America Vote Act (HAVA), the official database of Texas' registered voter information is now administered by the Agency. Since January 1, 2006, the Agency has utilized the Texas driver's license number or the last four digits of the social security number to verify all new voter registration applicants. Currently, 214 counties use the Agency's online voter registration system to administer voter registration. The remaining counties exchange data with the Agency on a daily basis to ensure that the Agency's database is current with the official list of registered voters.

Administrator's Statement

87th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

307 Secretary of State

The Agency developed an online grant program for the acquisition of electronic HAVA compliant voting systems in Texas counties. The grant program has ended and over the life of the grants, the Agency reimbursed approximately \$175,000,000 dollars to counties for acquisition of and training on new election systems and equipment. This grant program was comprised of federal HAVA funds and state matching funds.

Using federal HAVA funds, the Agency has developed an online training tool to educate polling place workers. This includes a component that instructs poll workers on how to set up, work, and close down each type of voting system equipment certified for use in Texas. Also, using federal HAVA funds, the Agency developed and replicated a comprehensive voter education campaign for each federal election cycle. In addition, the Agency certifies new voting systems as those systems pass the federal Election Assistance Commission's certification process.

Finally, as required under HAVA, the Agency built a statewide voter registration database, the Texas Election Administration Management (TEAM). Approximately \$3,000,000 is necessary to maintain and update TEAM each biennium. The Agency has used federal HAVA funds to pay that expense since 2005; however, the federal funding source is nearing the end of life. If current projections are accurate, general revenue appropriations will be required to finance TEAM maintenance in FY2022-2023. This item is included in the exceptional item section of the LAR. In addition, the Agency has established a long-term contract with a vendor to operate and maintain the TEAM system thru 2024. The federal law requiring the state to maintain the database will remain in place for the foreseeable future even as the federal funds are being depleted.

The remaining federal HAVA funds that were authorized in 2002 were appropriated by Congress in fiscal year 2018 and delivered to the states. The funds were appropriated under Title I of HAVA which requires that the funds be used to improve elections. Congress specified that states should use the funds to improve the security of elections along with other uses under Title I.

Election Security and Oversight

Election security and integrity is an increasingly important subject. The Agency believes it is important to provide additional oversight to individual counties, review their process and security measures and to provide training regarding state law and rule requirements as well as best practices in all areas of election administration, including the security of election systems and their voter registration obligations. To implement this program, we request four new full time equivalent positions and a budget for them to travel. This would cost approximately \$1,400,000 each biennium. This item is included in the exceptional item section of the LAR.

Election/Voter Registration Funds

The Agency has budgeted approximately \$15,000,000 for political party costs required to conduct the 2022 primary elections and runoffs. This amount includes approximately \$12,000,000 in state general revenue and \$3,000,000 in candidate filing fees. The Agency has budgeted \$185,000 for costs incurred in administering the primary funds. \$427,885 has been budgeted for the official voter registration application business reply postcard postage and the related postal permits.

During the 86th Legislature, the Agency received funding to increase the rate of pay for poll workers which resulted in retaining qualified poll workers and increasing the number of poll workers.

307 Secretary of State

Voter Registration

Voter Registration Funds, also referred to as Chapter 19 Funds, are state appropriated general revenue funds issued to voter registrars in Texas to help defray county voter registration expenses. Historic legislation, which passed in 1966 during a special session of the 59th Texas Legislature, established these funds after the poll tax was declared unconstitutional and abolished. Voter registrars obtain these funds by filing, before May 15th of each year, an activity statement for the previous year setting forth the total number of registrations, the total number of registrations canceled, and the total number of registrations updated. The administrative rules adopted by the Secretary of State provide that Chapter 19 Funds may be used to defray the cost of any item or service designed to increase the number of registered voters, maintain and report an accurate list of the number of registered voters, and/or increase the efficiency of the voter registration office. The current appropriations act estimates expenditures of \$5,000,000 for AY 2022 and \$1,000,000 for AY 2023 for this purpose.

International Protocol/Border

Goal C – International Protocol. Provide Protocol Services and Representation on Border Issues.

The Secretary serves as the Chief International Protocol Officer for Texas. The Agency receives and assists international officials. In addition, we are the central point of contact for public officials both domestic and international, as well as business leaders, to meet and conduct business with Texas governmental officials as well as Mexican federal, state and local officials, on issues affecting Texas, Mexico and the border region.

Indirect Administration

Goal D – Indirect Administration.

Central Administration

The Executive Division provides centralized management services and oversight to all other divisions. The Secretary of State and the Deputy Secretary provide executive administration. Additional functions within central administration are general counsel, internal audit, and public information, including oversight of information published via the World Wide Web.

Administrative Services

The Administrative Services Division (ASD) provides financial, human resource, and procurement services to the Agency. The Financial Management section includes financial, budgetary, and property accounting and reporting, as well as payroll. The Human Resources section assists all divisions with personnel management, recruiting and selection, and employee benefits, as well as recordkeeping and reporting. The Operating Support section includes contract management. This section also procures needed supplies, equipment, and services and coordinates space planning and allocation. In addition, the ASD manages the Agency's centralized mail services and building operations.

Information Technology

Managing information processing capabilities remains a high priority for the Agency. Agency databases maintain the official list of registered voters. The Agency merges driver's license data and voter registration data to create the official jury list. In addition, Agency databases preserve and circulate corporate, limited liability, limited partnership, and assumed name filings. The Agency also maintains UCC filings, notaries public certifications, and other important public records. The Agency provides direct access to electronic data for thousands of governmental and commercial entities as well as individual Texas citizens with an average of over 500,000 searches conducted via the World Wide Web each month.

Unexpended Balances

The Agency requests continuation of the authorization to carry forward the unexpended balances from FY 2022 into FY 2023 because it is necessary to spread these expenditures over two years for the following strategies: B.1.2. Election/Voter Registration, B.1.3. Constitutional Amendments, and A.2.1.Document Publishing. Additionally, authority to carry forward unexpended balances is requested in the A.1.1.Document Filing strategy and B.1.4. Election Improvement.

New Rider Request

The Agency requests one new rider: 1. a new rider providing for a 20 percent General Revenue Fund State match (estimated to be \$1,200,000 for the 2020 Help America Vote Act (HAVA) election security grant received in December 2019).

Exceptional Items

The Agency requests six exceptional item funding requests that are summarized as follows:

- 1) \$1,200,000. Elections Improvement - HAVA Security Grant Matching Funds. The Agency received federal HAVA Election Security grant funds totaling approximately \$26,000,000 in fiscal year 2020, which requires 20% matching funds. SOS allocated approximately \$20,000,000 of the grant to the counties, and each participating county must meet the 20% match requirement. The remaining funds will need to be matched by the Agency, which is estimated to be \$1,200,000.
- 2) \$2,345,143. Restoration of 5% Reduction. The Agency requests restoration to continue business operations of the Agency. The reduction proposed/implemented in the previous biennium were one-time costs savings measures that if continued in the next biennium will have a negative impact on operations within various program areas.
- 3) \$37,783,797. SOS Modernization & Upgrade of Legacy Enterprise Technology-BEST. The Office has annual revenue collections in excess of \$100 million and utilizes its Business Entity Secured Transaction (BEST) system that was deployed in 2001 for processing and recording. The State Auditor identified a weakness in revenue processing and recording in its audit of the Financial Processes at the Office of the Secretary of State (SAO Report No. 19-020). The Agency's automated processes significantly affect the reliability of its revenue data. The requested funds are necessary to modernize the legacy BEST system.

- 4) \$1,341,058. Texas Election Administration Management. The Agency received federal HAVA Election Security funds totaling approximately \$23,000,000 in fiscal year 2018, which required 5% matching funds that the 86th Texas Legislature appropriated. The Agency used a portion of the funds to upgrade and enhance the security of its Texas Election Administration Management ("TEAM") system which, among other things, houses the state's official list of registered voters. The legislatively-mandated functionality added to the TEAM system over the years has served to further increase the security requirements of the system. Although the federal funds covered the modifications and the increased annual maintenance cost, those federal funds are not an annual appropriation. Accordingly, the state will need to absorb the additional annual maintenance cost, which is an added \$670,529 to the existing \$1,500,000 state annual appropriation.
- 5) \$1,400,000. County Election Security Training. The Agency seeks to hire four additional employees in the Elections Division with primary responsibility for traveling to counties and regions to gather information regarding current county election practices on election equipment management, voter registration, cybersecurity, physical security measures, and access to equipment and facilities. The purpose would be for these employees to identify issues and to train counties individually and in regional meetings regarding best practices in each of these areas. Travel would be 50 percent of these employees' time and there would need to be sufficient travel budget for them. The amount requested is \$150,000 per employee (total cost) per year and \$200,000 in travel expenses over the biennium.
- 6) \$1,350,000. Administration FTE Funding. The Agency has identified three areas of payroll that require additional funding: 1) Using average "Salary Groups" by category of employees and median "Salary Rates", the current elections staffing pattern is underfunded by \$350,000/yr.; 2) 10 positions should be reclassified as duties have increased for a total \$100,000/yr.; and, 3) Due to expanded duties and functions as mandated by the legislature, an additional four employees are needed estimated at a cost of \$225,000/yr. (for all four employees collectively).

Request for Statutory Change

Section 406.007(a)(2) of the Texas Government Code requires notary public applicants to pay a fee of \$1 to the Agency to pay for "hiring an investigator and for preparing and distributing the materials required to be distributed under Section 406.008." This \$1 fee is in addition to the \$20 application fee, with the total of those fees being \$21.

The Agency proposes to increase the \$1 fee to \$2, so that the total notary application fee is increased from \$21 to \$22. The one dollar increase from \$21 to \$22 will be borne by the notary applicant and not by all taxpayers. This request allows the Agency to hire an additional investigator to handle the increased workload.

In addition to paying for the investigator, the \$1 fee also pays for a notary training video on the Agency's website as well as notary education materials that we provide to notaries as required by Section 406.007(a)(2) of the Texas Government Code. With the advent of online/remote notarizations in 2018, the Agency needs to update that training video, but there are no available funds to do that. The increase from \$1 to \$2 will also allow the Agency to pay for revisions to the training video.

Exempt Positions

The Agency has only one exempt position, the Secretary of State. No change in title or salary is sought for this position this biennium.

There were no significant policy changes, accounting changes nor changes in provisions of service for the Agency.

Criminal Background Checks

Job applicants with criminal records may be eligible for employment if they are otherwise qualified for a position. However, the Agency's priority is a crime-free work environment and a law-abiding workforce. The eligibility of an applicant who has a criminal record may be determined by the following factors:

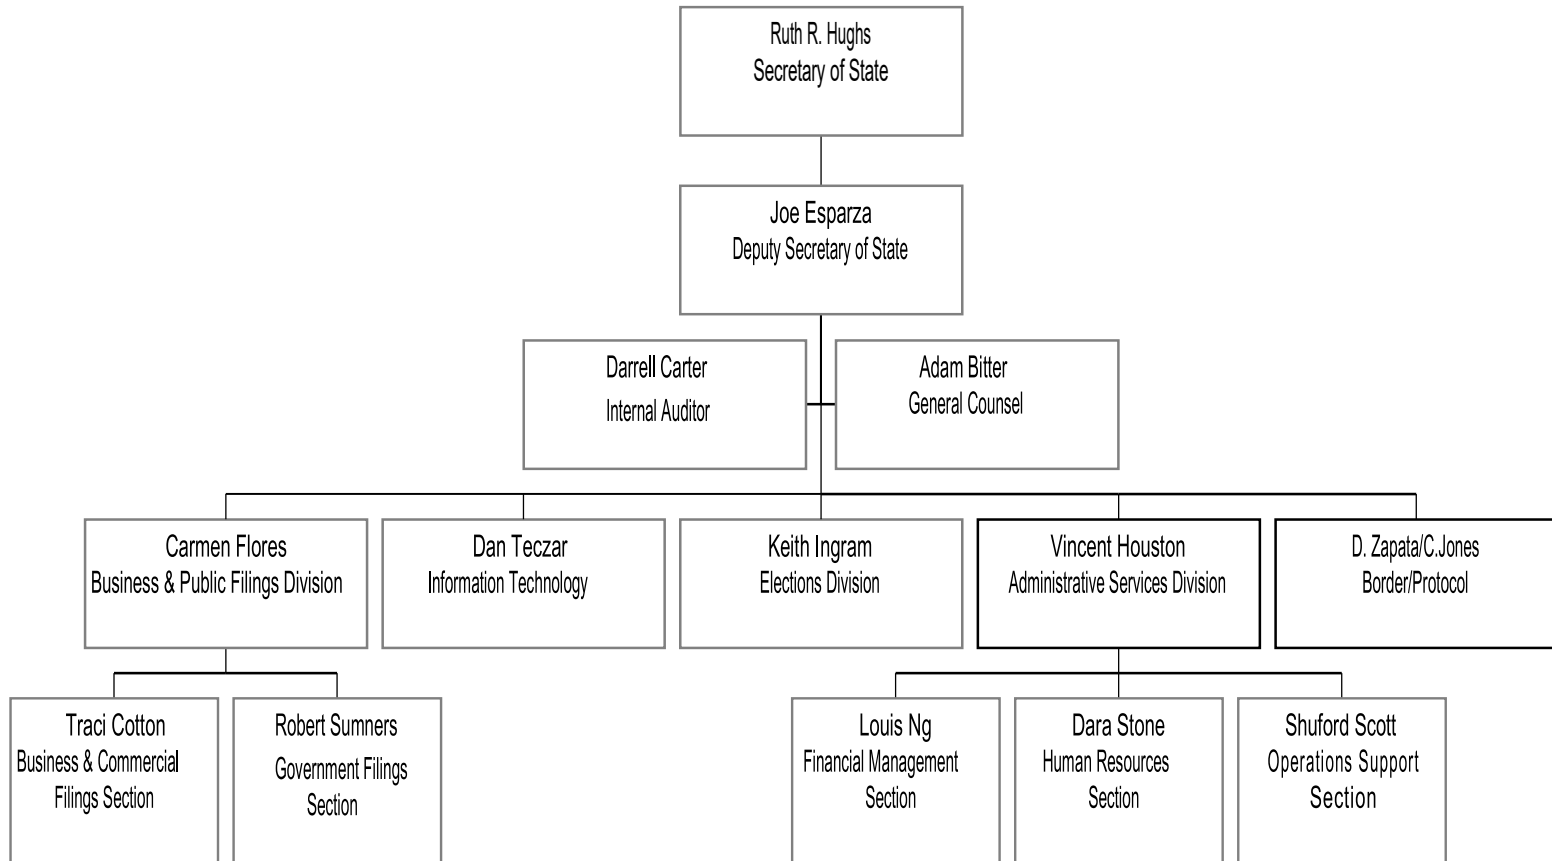

1. the position;
2. the nature of the crime;
3. the time elapsed since the crime was committed and completion of a sentence or other punishment;
4. the applicant's record of behavior while serving a sentence; and (5) any other factors deemed relevant. Statutory authority for the above Agency policy: Government Code §411.1405.

The Agency randomly conducts background checks on notary public applications to determine eligibility for appointment. A criminal background check also is made if a notary application indicates that the applicant has a criminal record or there is any other indication of possible misconduct regarding the moral character of a notary applicant.

Statutory authority for the above Agency policy: Government Code §406.004 and §411.122.

The Agency followed guidelines per the State Leadership policy letter and worked with staff of the Legislative Budget Board and Office of the Governor to meet GR/GR-D limit to prepare and meet the requirements of beginning with base funding amounts equal to adjusted biennium 2020-21 base appropriations.

To file documents creating and updating business entities. To record assumed names and register trademarks under the Business & Commerce Code. To provide a central filing location for lien notices pursuant to the Uniform Commercial Code; the Uniform Federal Lien Registration Act; and lien notices under other statutes. To appoint statewide notaries public upon application, ensure that notary public applications secure a \$10,000 surety bond, and issue commissions for four-year terms; to issue official notary public certifications; to enforce the Notary Public Act through rules; and act on notary public complaints. To forward process to defendants when Secretary of State is statutory agent for service of process. To register entities (e.g. health spas, credit service organizations, automobile clubs, athlete agents) and take administrative action when authorized. To commission appointed and elected officials and file the constitutional statements of officer. To file all legislative bills passed by the legislature. To file proclamations and miscellaneous filings (various statutes).

To respond to requests for information, copies, and certificates from the resulting records.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The strategy workload is significantly impacted by national and state economic factors, business growth, and private sector borrowing. As the economy expands, the filings increase and requests for information regarding these filings increase. In addition, workload may be impacted by changes in state business law and state or federal taxation issues.

The efficiency with which filings and information requests are processed is dependent upon the employment of current technology and the ability to attract and retain a competent workforce.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Following each session of the legislature, the Secretary of State publishes and maintains electronically the bills and resolutions enacted at that session. The electronic publication is indexed by bill number. Chapter numbers are assigned to each bill. The electronic publication is accessible on the Internet. The signed paper original bills and resolutions are bound and delivered to the State Archives.

The Secretary of State publishes all state agency rule notices in the weekly issues of the Texas Register. Rules also are posted daily on a searchable Internet database. The compilation of adopted rules is published in the Texas Administrative Code, which is updated each day on the searchable Internet database.

The Texas Register contains the text of pending rule changes and other state agency notices required to be published by the following statutes: Texas Govt. Code, Chapters 2001, 2002, 551, 2254, and other applicable laws.

The Texas Administrative Code contains the compiled text of all state agency rules that are in effect, as well as superseded versions of rules from 1999 forward. The Texas Register and the Texas Administrative Code are available on the Secretary of State Internet site and in print from commercial legal publishers.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The Secretary of State is required to publish the Texas Register and compile adopted rules in the Texas Administrative Code. This office has no control over the number of rules and other documents filed by state agencies for publication in the Texas Register and Texas Administrative Code. Both the Texas Register and the Texas Administrative Code are made available to the public at no charge on the internet. Commercial legal publishers offer print subscription services for the Texas Register and Texas Administrative Code.

STRATEGY DESCRIPTION AND JUSTIFICATION:

As chief election officer for the state, the Secretary of State is required to assist and advise election authorities to ensure the fair and uniform application, operation and interpretation of election laws. (Texas Election Code, Sections 31.001- 31.008) The Secretary of State’s Elections Division answers day to day inquiries of election officials received on several toll-free numbers, and also prepares detailed directives and advisory memoranda concerning proper election procedures. In addition, other central election duties include: training programs for election officials; prescription of official election forms, including postage paid voter registration applications that are provided to the public free of charge; certification of special and general election ballots; collection of election night returns, administration of the state election inspector program; administration of the constitutional amendment elections, certification of voting systems; and submission of election-related legislation to the U.S. Department of Justice for pre-clearance.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The key external factor affecting this strategy is the statutory election cycle. The primary elections and general election for state and county officers are held in even-numbered years. Consequently, more assistance and advice is provided to election officials in even-numbered years. Another significant external factor is the number of registered voters. Registration rates appear to be consistently between 70 and 80% of the voting age population. Another factor impacting this strategy is a standard now being enforced by the US Postal Service (USPS) that requires pre-addressed voter registration cards, which the state is to provide in “reasonable” quantities. Since 1987, the USPS had granted the Agency a special exception in which it has been allowed to use a business reply permit without pre-addressing the application. The new standard being enforced that requires the cards to have the county address with the zip code plus four and the USPS approved bar code has affected the Secretary of State twofold. First, the cost of printing the cards has increased because the Agency must order 254 different versions of pre-addressed cards plus a version with the Agency address in both English and Spanish. Secondly, because supplies of pre-addressed cards to the counties are distributed in precise quantities, many of the voter registration cards that get distributed are the version with the Secretary of State’s address, which has resulted in significant hours of staff time spent sorting and distributing the cards to the appropriate county.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Secretary of State is required to administer and disburse two state-funded election cost reimbursement funds. Section 173.001 of the Texas Election Code requires the Secretary of State to administer the Primary Election Financing Program, in which the state and county political chairs are reimbursed for the reasonable and necessary costs of conducting the primary elections. In addition, Section 13.121 of the Texas Election Code requires that the official voter registration application prescribed by the Secretary of State be printed with pre-paid postage. The voter registration postage is administered through separate postage accounts for each county.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

One of the key external variables affecting this strategy is the statutory election cycle. The majority of primary election funds are reimbursed in even-numbered years, and the number of voter registration applications mailed is also higher in even-numbered election years due to the primary and general election cycle. Other external factors include whether there will be two statewide primary runoffs, voter turnout and interest in a particular election, as well as legislation and (or) litigation that may affect the conduct of the election. Another external requirement is Federal Legislation, specifically, the Help America Vote Act of 2002. HAVA along with state law requires Texas Counties to use voting systems that are fully accessible to disabled persons such that they can vote independently. These accessible voting systems necessitate programming and maintenance costs that continue to escalate thereby increasing the costs of elections including primary and primary runoff elections.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Article 17 of the Texas Constitution and Chapter 274 of the Texas Election Code require the Secretary of State to prepare and publish a brief explanatory statement of each proposed constitutional amendment. Currently, each statement is published in English in approximately 504 newspapers of general circulation and in Spanish in approximately 42 Hispanic newspapers. In addition, each Spanish surnamed registered voter household receives a direct mailing of the translated explanatory statements.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The appropriation request is based upon an estimated number of 10 amendments on the November ballot and the key variable in this strategy is the cost of newspaper advertising. Total newspaper advertising cost is driven by the number of columnar inches required to print the explanatory statement of each amendment. Complex amendments may require more explanatory text and more space in the newspaper. Newspaper advertising rates typically increase by 3-5% every biennium. The increased advertising rate is partially offset by the gradual decline in the number of newspapers statewide.

CODE	DESCRIPTION	Exp 2019	Est 2020	Bud 2021	BL 2022	BL 2023
------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

Pursuant to sections 31.003 and 31.0101 of the Texas Election Code, the Secretary of State is required to maintain and obtain uniformity in the application, operation, and interpretation of all election laws, including the federal Help America Vote Act of 2002 (“HAVA”). Federal funding is available under HAVA, and the Secretary of State is authorized to draw down federal funding to:

- (1) improve the administration of federal elections;
- (2) make grants to counties to comply with HAVA mandates, including improving or replacing voting systems;
- (3) create a uniform, official, centralized, interactive, computerized statewide voter registration list;
- (4) educate voters, election officials, and election workers regarding HAVA, including its impact on state and federal laws.
- (5) comply with other HAVA mandates.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

An external factor affecting this strategy is the degree to which counties obtain and maintain compliant voting systems. Counties’ ability to purchase and maintain compliant voting systems depends on the availability of funds and the counties’ commitment to complying with HAVA mandates. The funding designated in the Texas HAVA State Plan for counties to acquire HAVA-compliant voting systems has been fully utilized and expended. Counties will need to look to other funding sources to absorb future costs related to maintaining a HAVA-compliant voting system, such as annual license and maintenance costs, equipment upgrades, equipment replacement, and other operating costs needed for HAVA-compliance. Moreover, the Secretary of State has used HAVA funds to pay for the statewide voter registration list database expense since 2007. However, the HAVA funding dedicated for maintenance of that system is depleted which results in the need for state funding as a revenue source. The federal law requiring the state to maintain the database will remain in place.

This strategy provided funding to counties to defray the cost of voter registration. Funding is allocated to each county based on the number of initial registrations, canceled registrations and updated registrations of voters in the county as established by a certified statement submitted by the Voter Registrar to the Secretary of State, as required by Election Code, Section 19.002. This is an estimated appropriation.

The Administrative Services Division includes executive administration and oversight of the entire agency. It also provides for financial, human resource, information technology management, and procurement services to the Agency. The Financial Management section includes financial, budgetary, and property accounting and reporting, as well as payroll. The Human Resources section assists all divisions with personnel management, recruiting and selection, and employee benefits, as well as recordkeeping and reporting. The Operating Support section procures needed supplies, equipment, and services and coordinates space planning and allocation. In addition, Operating Support manages the Agency’s centralized mail services.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Statewide management initiatives often require additional administrative reports and other exchanges of information with oversight agencies. When funding is stable or decreasing compliance becomes more challenging.

DESCRIPTION / JUSTIFICATION:

SOS received federal HAVA Election Security grant funds totaling approximately \$26MM in 2020, which requires 20% matching funds. SOS allocated approximately \$20MM of the grant to the counties, and each participating county must meet the 20% match requirement. The remaining funds will need to be matched by SOS, which is estimated to be \$1.2M

EXTERNAL/INTERNAL FACTORS:

Texas received the grant funds from the federal government in December 2019. The state has two years to meet the required 20% match or risk having to return the funds, even though all or a portion of the funds have been expended.

DESCRIPTION / JUSTIFICATION:

The State Auditor identified a weakness in revenue processing and recording in its audit of the Financial Processes at the Office of the Secretary of State (SAO Report No. 19-020). The Office of the Secretary of State (Office) had weaknesses in its automated processes that significantly affected the reliability of its revenue data. The Office has annual revenue collections in excess of \$100M and utilizes its Business Entity Secured Transaction (BEST) system that was deployed in 2001 for processing and recording. While incremental technology upgrades have been incorporated into this system to ensure that it remains reliable and supported, the basic technical architecture of the system has reached end of life. The agency has investigated the best solution to upgrade/replace this system due to funding received in the 86th legislature. The new system will include appropriate controls and functionality to accurately process and record revenue. Additionally, this program will fund legacy IT modernization for various functions for the agency, including but not limited to replacement:

- 1) Upgrade and introduction of new electronic services for business and public filings
- 2) Infrastructure related to overall agency modernization
- 3) Technology platform standardization across all SOS divisions for Enterprise Content Management, Security, Development and hosting
- 4) Cloud migration activities, services, hardware & software components
- 5) Network and security hardware, software, appliances and services
- 6) Database modernization
- 7) Software as a Service
- 8) Implementation, integration and operational services
- 9) Digitization of existing paper processes
- 10) Process improvement analysis including training of agency staff and contract support
- 11) Customer engagement planning, coordination and efforts related to technology improvement

EXTERNAL/INTERNAL FACTORS:

Improvement of legacy infrastructure will greatly reduce risk of continued downtime for key agency processes directly affecting the general public for business and public filing and other agency functions. Texas Government Code requires the agency to process hundreds of millions of dollars in business and public filings. Twenty year old outdated, unsupported systems currently support those filings that are costly, operate inefficiently and have information security risk to the public and the agency.

OUTCOMES:

Upgraded infrastructure, improved more efficient agency processes, staff training resulting in more productive agency employees, more reliable and secure improved public services on modern infrastructure. Reduction of risk included with processing paper documents, which is currently 40% of filings, for PCI compliance and processing checks.

OUTPUTS:

Decreased paper processes and increased digital processes for more efficient agency operations.

ALTERNATIVE ANALYSIS

Alternate options include attempting to maintain legacy applications including some that were developed more than twenty years ago. Some of these platforms are no longer supported by their existing vendor and pose a security risk. Cost, risk, downtime and lack of personnel needed to support legacy infrastructure pose significant hurdles to maintaining this alternate path.

DESCRIPTION / JUSTIFICATION:

SOS received federal HAVA Election Security grant funds totaling approximately \$23MM in 2018, which required 5% matching funds that the 86th Texas Legislature appropriated. SOS used a portion of the grant funds to upgrade and enhance the security of its Texas Election Administration Management ("TEAM") system which, among other things, houses the state's official list of registered voters. The legislatively-mandated functionality added to the TEAM system over the years has served to further increase the security requirements of the system. Although the federal dollars covered the modifications and the increased annual maintenance cost, those funds are not an annual appropriation. Accordingly, the state will need to absorb the additional annual maintenance cost, which is an added \$670,529 to the existing \$1.5M state annual appropriation.

EXTERNAL/INTERNAL FACTORS:

The Office has a contract with an outside vendor for maintenance expense and system modifications.

DESCRIPTION / JUSTIFICATION:

Four additional employees in elections with primary responsibility for traveling to counties and regions to gather information regarding current county election practices regarding, election equipment management, voter registration, cybersecurity, physical security measures, access to equipment and facilities etc. The purpose would be for these employees to identify issues and to train counties individually and in regional meetings regarding best practices in each of these areas. Travel would be 50% of these employee's time and there would need to be sufficient travel budget for them. The amount requested is 150,000 per employee (total cost) per year and 200,000 in travel expenses over the biennium. Total cost for this item is 1,400,000.

EXTERNAL/INTERNAL FACTORS:

Election security has become a focus at the federal, state, and local levels. It is anticipated that the demands on the Office to provide security consultation and support will increase. In addition, this funding will complement the 2018 Help America Vote Act ("HAVA") Election Security Funding received from the federal government.

DESCRIPTION / JUSTIFICATION:

The SOS has identified three areas of payroll that require additional funding: 1) Using average "Salary Groups" by category of employees and median "Salary Rates", the current elections staffing pattern is underfunded by \$350,000/yr.; 2) 10 positions should be reclassified as duties have increased for a total \$100,000/yr.; and, 3) Due to expanded duties and function as mandated by the legislature, an additional four employees are needed estimated at a cost of \$225,000/yr.

EXTERNAL/INTERNAL FACTORS:

The lack of funding for positions delays the agency response times and increases work load of existing staff that results in turnover.

B. Assessment of Fiscal Year - Efforts to Meet HUB Procurement Goals

Attainment:

The agency was rated #1 in 2019 for the top twenty-five agencies spending more than five million with 52.40% spent with HUBs.

Applicability:

The agency had no expenditures in FY 2018 or FY 2019 toward construction or special trades.

Factors Affecting Attainment:

In 2014, the agency entered into a seven year contract for \$14,053,327.00 that included a 33% participation from HUBs. That included \$1,115.00 in FY 2018 in professional services.

"Good-Faith" Efforts:

Continue to attend and be involved with HUB fairs and events.

Project Description for the 2020-21 Biennium:
Funds were appropriated (\$200,000) to perform a study for the replacement of the agency's legacy business filing system. However, given the effect of the Covid 19 pandemic and the requirement to reduce agency appropriations by 5%, the agency eliminated the remaining study amount and included the unspent amount in its 5% required GR/GR reduction.

Project Description and Allocation Purpose for the 2022-23 Biennium:
Fund allocated to overall strategy operations.

SUMMARY OF SPECIAL CONCERNS/ISSUES

Assumptions and Methodology:

Federal Funds will be exhausted during fiscal year 2021 for Texas Census Outreach.

Potential Loss:

The federal funding of this program CFDA 39.011 will not be continued. Therefore the federally mandated Voter Registration System will need to be funded by General Revenue in the future years.

USE OF HOMELAND SECURITY FUNDS

The agency was appropriated capital budget funds totaling \$200K for fiscal year 2020 for the first phase of an agency-wide PC refresh. The agency changed from PC to laptops with docking stations along with associated hardware and software including enhanced security to allow staff to tele-work in response to the COVID-19 disaster declaration. The amounts shown below do not include the appropriated funds for capital items. Additionally, the agency purchased personal protection equipment, cleaning products, and installed sneeze guards to protect staff as they engaged with the public.
