Number of Copies Required:

One.

Completed by:

The Voter.

Filing Date:

Same filing deadline as regular early voting in person and by mail. If voting in person, last day of early voting by personal appearance (not election day). If voting by mail, deadline for applying by mail.

Filed with:

Early Voting Clerk of the voter's new residence.

Comments:

As long as the voter is currently registered in their former county of residence or was registered in the former county of residence when they applied for registration in the new county, they are eligible to vote a limited ballot in the new county of residence. The early voting clerk in the new county of residence is not required to confirm the prior voter registration in the former county of residence. However, the early voting clerk must verify that the applicant does not have an effective registration in the county of new residence prior to providing a limited ballot. If the registration in the new county will be effective on or before election day, the early voting clerk shall reject the application for limited ballot, and have the voter vote in the regular manner, either during early voting in person or on election day.

Applicant must be a resident of the political subdivision or territory where offering to vote.

The applicant is not eligible to vote a limited ballot by mail unless, in addition to satisfying the eligibility requirements prescribed by Subsection (a), the person is eligible for early voting by mail under Chapter 82.

Voters do not have to apply for voter registration in their new county of residence prior to using this method of voting.

Completion of the limited ballot application will serve as a registration application for future elections in the county in which the application is submitted.

Statements regarding failure to have TDL or SSN were combined to one statement.
