Consolidation and Combination of Precincts

April 7, 2026 Webinar

Agenda

- 1 Precincts under the Election Code
- 2 General Rules on Combination, Consolidation, and Polling Places
- 3 Combination of Precincts
- 4 Consolidation of Precincts

Precincts

- A **precinct** is a geographical unit that represents a particular office or territory
- The Election Code uses the term precincts to refer to several different concepts:

Commissioner Precinct

The territory that is represented by a county commissioner

Justice of the Peace/ Constable Precinct

The territory that is represented by a justice of the peace and constable

County Election Precinct

A territorial unit in which voters are registered based on the residence addresses that fall within the territory

Election Day Precinct

A territorial unit that corresponds to each election day polling place (for precinct-based voting)

Combination and Consolidation

- **Combination** and **consolidation** are two different methods for counties to reduce their total number of required polling locations
- Both methods are:
 - Designed to allow counties to reduce their overall costs, their required number of poll workers, and the number of units of voting system equipment for their elections
 - Available for counties that use precinct-based or countywide voting
- You can combine/consolidate in the same election, if the conditions are met for both options
 - However, these options should only be used if the polling locations selected can adequately serve the voters of the combined/consolidated precincts

Combination

Allowed when one precinct has fewer than 3,000 registered voters

Combined precinct cannot exceed 5,000 voters (10,000 in special cases)

Precincts can have different ballot styles

Results reported separately for each precinct in the combined precinct

Consolidation

Only allowed in special and primary elections, not general elections

In special election, at least one consolidated precinct is required in each commissioner precinct

Precincts consolidated together must have same ballot style

Results reported for entire consolidated precinct as one precinct

Who and When?

- **When?**
 - Combination and consolidation are not permanent changes to your precincts
 - Must take specific action to combine/consolidate for each individual election you plan to use them for
- **Who?**
 - In a general election or special election...
 - Commissioners court
 - In a separate primary election...
 - The county executive committee
 - In a joint primary election...
 - The county election officer

Precinct-Based Polling Place Requirements

- Each precinct must have one polling place located within its specific boundaries
- If precincts are combined/consolidated, the new polling place must be located within the boundaries of that combined/consolidated area

Countywide Polling Place Requirements

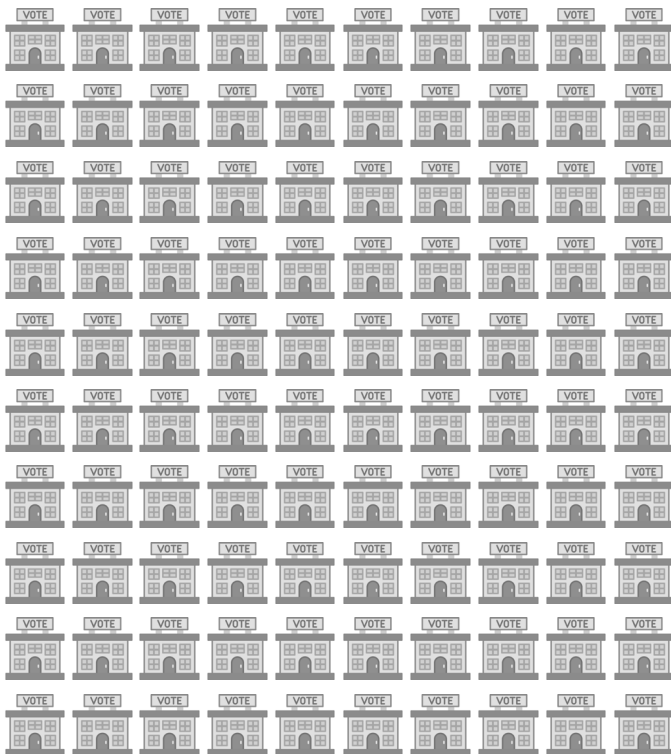

- When using countywide polling places, counties must follow specific requirements when determining number and placement of polling places
 - Number of polling places must equal 50% of number of precincts (65% in first year), with this calculation applied *after* any precincts are combined/consolidated
 - **An illustration of this will be shown on the next slide**
 - One polling place per commissioner precinct
 - No commissioner precinct has more than twice the number of locations of another commissioner precinct

Combination of Precincts

A Visual Representation

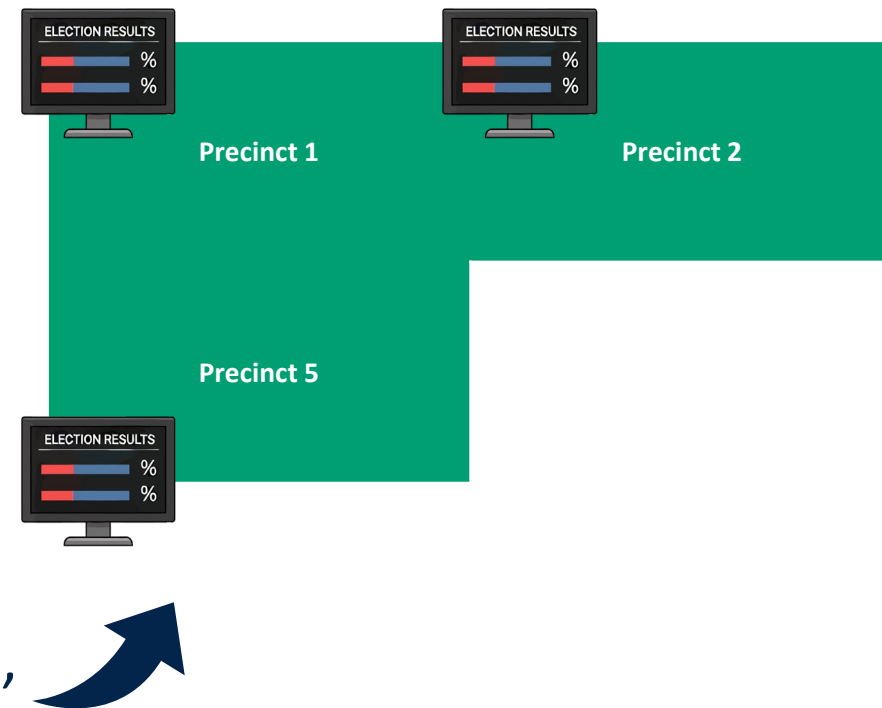

Combination of Precincts

- **Population-Based Combination**
 - A precinct with **fewer than 3,000** registered voters can be combined with one or more other precincts
 - Population limit of combined precinct is **5,000 registered voters**
 - Precincts must be **contiguous**, meaning they must share a common boundary
 - **Can be used** by countywide and precinct-based counties
- **Combination Due to No Suitable Polling Place**
 - If a precinct lacks a suitable building for a polling place, it **can be combined** with another precinct
 - Population limit of combined precinct is **10,000 registered voters**
 - Precincts must be **contiguous**, meaning they must share a common boundary
 - **Not an available method** of combination for countywide counties

Combination of Precincts

- Polling Places:
 - **Precinct-Based**—One polling place for combined precinct
 - **Countywide**—50% of number of precinct-based polling places
- One single set of workers, supplies, and equipment for the polling place for the combined precinct
- **Results are reported separately** for each precinct contained within the combined precinct
 - For example, if precincts 1, 2, and 5 are combined, report results for each precinct individually

Consolidation of Precincts

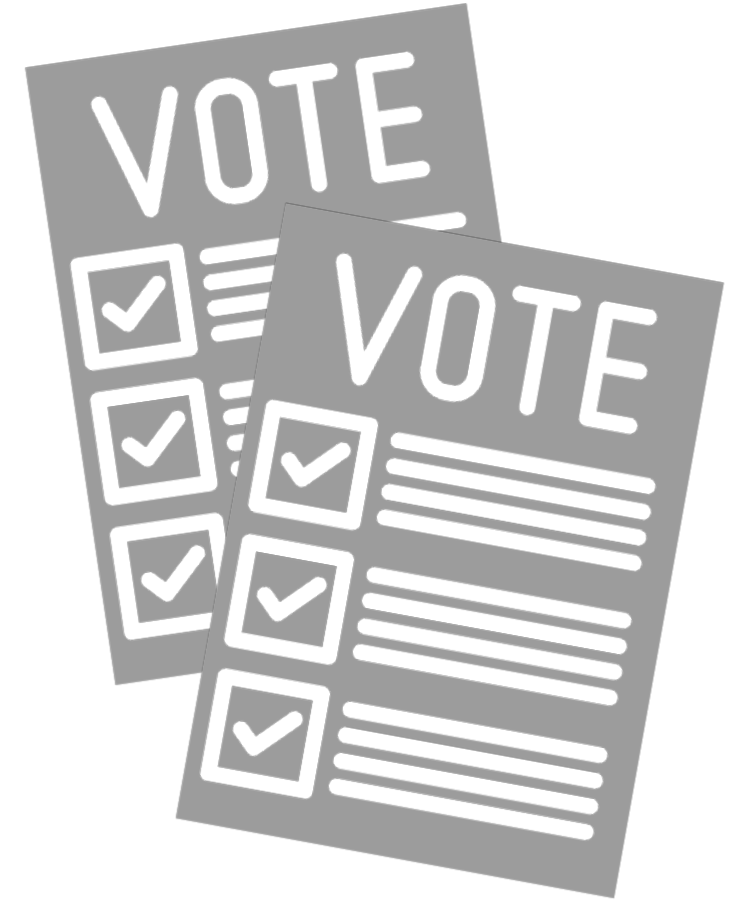

Consolidation of Precincts

- **Special Elections (including constitutional amendment elections and legislative vacancies)**
 - Can consolidate precincts
 - For countywide special election, must have at least one consolidated precinct wholly contained in each commissioners precinct
- **Primary Elections (including Primary Runoff Elections)**
 - Can consolidate precincts
 - Both precincts must share same ballot style to be consolidated
 - For primary runoff, additional precincts may be consolidated depending on which offices are on the ballot
- **General Elections (including November GESCO)**
 - Cannot consolidate precincts

Consolidation of Precincts

- When determining whether to consolidate, consider whether the two precincts have the same offices on the ballot, based on the offices listed in 42.005:
 - County Commissioner
 - Justice of the Peace
 - US Representative (Congressional District)
 - State Representative
 - State Senator
 - State Board of Education
- Consolidated precincts must be contiguous, meaning they must share a common boundary

Consolidation of Precincts

- Consolidation is determined by the type of election and ballot styles used in each precinct rather than by population size
 - However, the consolidated polling place must adequately serve the voters
- Polling Places
 - **Precinct-Based**—One polling place for consolidated precinct
 - **Countywide**—50% of number of precinct-based polling places
- One single set of workers, supplies, and equipment for the polling place for the consolidated precinct
- **Results are reported together for the entire consolidated precinct**
 - For example, when precincts 1, 2, and 3 are consolidated, report results as a single, combined total rather than each precinct individually

Part 2 – March Primary Election

A Visual Representation

Consolidation of Precincts

- **March Primary Elections**

- Can consolidate precincts in a primary election
- Both precincts must share the same ballot style to be consolidated
 - *Key Consideration:* What offices are on the ballot in this election?
 - Look at the list of offices in 42.005 to make this determination

- **Countywide**

- 50% of number of precinct-based polling places
- One polling place per commissioner precinct, ensuring no single commissioner precinct has more than double the locations of another commissioner precinct

- **Precinct-Based**

- One polling place per consolidated precinct

Consolidation of Precincts

Part 3 – May Primary Runoff Election

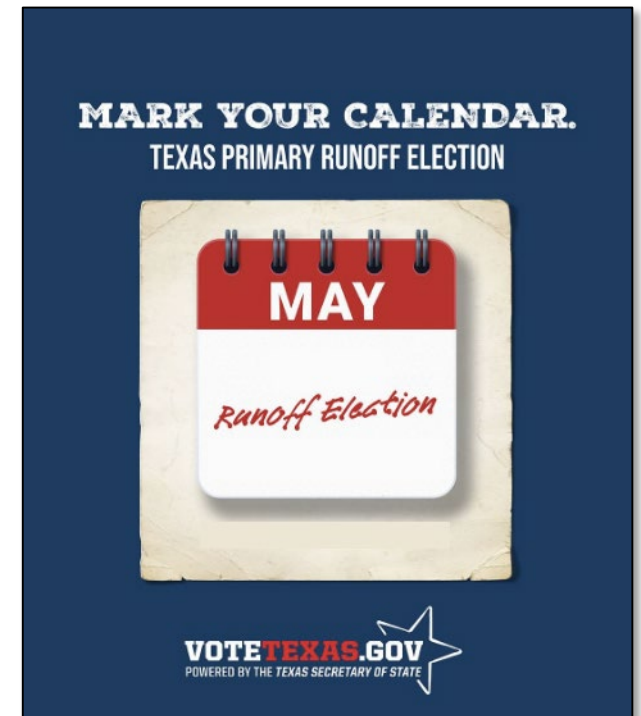

A Visual Representation

Consolidation of Precincts

- **May Primary Runoff Elections**

- Same basic rules as consolidation in a March primary
- *March Primary vs. May Runoff*—Are there offices that are not on the ballot in May because they did not go to a runoff?
 - This may change which precincts you are able to consolidate between the March Primary and the May Runoff

Texas Secretary of State
ELECTIONS DIVISION

Key Takeaways

Key Takeaways

- Combination and consolidation are two different methods
 - **Combination**
 - Available for all elections
 - Based on population or lack of suitable polling locations
 - Results reported separately for each individual precinct contained in the combined precinct
 - **Consolidation**
 - Only available for special and primary elections
 - Based on ballot styles
 - Results reported together for the whole consolidated precinct

Key Takeaways

- Countywide and precinct-based voting are affected differently by combination and consolidation
 - **Countywide**
 - Number of polling places must equal 50% of number of precincts (65% in first year), with this calculation applied *after* any precincts are combined/consolidated
 - You must maintain at least one polling place per commissioner precinct, ensuring no single commissioner precinct has more than double the locations of another commissioner precinct.
 - **Precinct-Based**
 - Every precinct requires its own polling place unless combined/consolidated, in which case one location serves the entire combined/consolidated precinct

Key Takeaways

- **Prioritize Voter Access:** Your main consideration when setting up polling places or combining/consolidating precincts is to ensure every voter is adequately served
- **Balance Costs Wisely:** Combining/consolidating are designed to avoid unreasonable spending when setting up polling places, but only if cutting costs do not provide a substantial benefit to your voters
- **Weighted Cost-Benefit:** When choosing between saving money and adding polling places, always lean toward the option that best serves your community
