Frequently Asked Questions

Frequently Asked Questions

Question: If a voter calls to request an ABBM, can the election officer fill in the voter's name and residence address at the top of the application?

Answer: No, Section 276.016(a)(4) of the Election Code prohibits an election official from completing any portion of the ABBM form and distributing that form to the applicant.

Frequently Asked Questions

Question: The EV clerk received a timely ABBM for an upcoming election from a voter who is not currently registered to vote in the county/political subdivision. Can the EV clerk process the application and send the voter a ballot by mail?

Answer: The application must be rejected and the voter must be sent a [Notice of Rejected Application for Ballot by Mail](#) (Form 6-2) if the voter is not registered in the county/political subdivision and the voter registration records reflect that the voter will not have an effective voter registration by election day in the county/political subdivision. Section 13.143 of the Election Code states that a voter registration is effective for purposes of early voting if it will be effective on election day. As such, if the voter registration records reflect that the voter's registration will be effective by election day, and the single-use ABBM or Annual ABBM contains the required information, the application should be processed and the voter should be sent a ballot by mail.

Frequently Asked Questions

Question: What if the residence address the voter provided on the ABBM is different from the residence address at which the voter is registered?

Answer: As long as the voter is registered in the political subdivision holding the election, *and* as long as the address on the ABBM is also within that county (or political subdivision), then the EV clerk should process the ABBM (if the voter is otherwise eligible to vote in the election) and send the voter a [Statement of Residence](#) (Form 21-6) along with the balloting materials. When mailing a ballot to the voter, the EV clerk must make a notation on the carrier envelope that a Statement of Residence is included so that the early voting ballot board knows to look for the Statement of Residence with the marked ballot; the early voting ballot board cannot count that ballot if the Statement of Residence is not returned by the voter.

Frequently Asked Questions

Question: It appears the voter may have recently gotten married/divorced and is now using a different last name on the ABBM than the last name the voter is registered to vote with. May the application be accepted?

Answer: If the EV clerk is able to confirm that the individual is a registered voter of the political subdivision, then the ABBM should not be rejected. However, if possible, the voter should be advised that there may be a problem later when the early voting ballot board reviews the name on the carrier envelope compared to the name on the list of registered voters. There is a possibility that the EVBB will reject the ballot. If possible, the EV clerk should contact the voter and have the voter update their information as to the name change. Once updated, the EV clerk can process the ABBM.

Frequently Asked Questions

Question: A voter has contacted our office and indicated that the personal identification number in their voter registration record is wrong; what can the voter do?

Answer: The voter registrar should review the voter's record to determine whether the voter's personal identification number was properly recorded by the voter registrar's office. If this review reflects that the voter's personal identification number was properly recorded by the voter registrar as previously provided by the voter, the voter should update their voter registration record. They can do so by submitting a new voter registration application to the registrar or by validating their personal identification numbers on Texas.gov if the voter has a DPS-issued driver's license or personal identification card. The process for updating the voter registration record is explained to the voter in the [Notice of Rejected Application for Ballot by Mail \(Form 6-2\)](#).

Frequently Asked Questions

Question: The voter submitted an ABBM by mail. The physical application did not include the voter's residence address. However, the envelope in which the application was delivered by mail included the voter's residence address. Should the application be rejected and the voter be notified of a defect?

Answer: No, the application should not be rejected. Section 84.005 of the Election Code provides that each document that contains information required for an early voting ballot application and that is submitted to the EV clerk and any envelope in which an application is submitted are part of the early voting ballot application. The envelope in which the voter's application was received by the EV clerk is part of the voter's application. If the residence address provided on the envelope is the same residence address at which the voter is registered to vote, the application should be processed and a ballot should be sent to the voter.

Frequently Asked Questions

Question: A voter submitted an ABBM and provided two types of personal identification numbers (i.e., driver's license number and last four digits of social security number) on their application. The voter registration record contains both types of personal identification numbers; one number on the ABBM matches the record, but the other does not match. Should the application be rejected?

Answer: No, the application should not be rejected. Because the EV clerk was able to validate one of the numbers to the voter's voter registration record (and thus verify the identity of the voter), the clerk must accept the ABBM and send a ballot to the voter.

Frequently Asked Questions

Question: Can a voter call and ask what personal identification number the voter registrar has on file for that voter?

Answer: Yes, a voter can ask to confirm the number listed, but the number should be provided by the voter and the EV clerk can confirm whether that number is accurate. The clerk should not provide any personal identification number from the voter registration record to a person over the phone. If the voter provides an incorrect number, the voter registrar can tell the voter that the number is incorrect, but the voter registrar should not read the number to the voter over the phone. The voter registrar can also confirm the type of number listed on file (driver's license or social security number).

Frequently Asked Questions

Question: How may facilities such as jails, nursing homes, or assisted living facilities obtain blank applications for multiple voters?

Answer: These facilities may request ABBMs from the Office of the Secretary of State, which has express statutory authority to provide ABBMs to voters and organizations, in reasonable quantities, upon request. They may also be directed to download the application by visiting VoteTexas.gov or the EV clerk's internet website (if the clerk maintains a website). An EV clerk must post the official application form for an early voting ballot on the clerk's internet website, if the clerk maintains an Internet website, in a format that allows a person to easily complete the application directly on the website before printing.

Frequently Asked Questions

Question: The EV clerk received a single-use ABBM from a voter who is confined in jail. The application was personally delivered to the EV clerk by a person from the jail authority. May the application be processed and a ballot mailed to the voter?

Answer: Yes, the application may be processed and a ballot mailed to the voter. On request of the applicant, an application for a ballot to be voted by mail on the ground of confinement in jail may be submitted to the EV clerk, at the discretion of the authority in charge of the jail, by personal delivery by the jail authority or by a designated subordinate of the authority.

Frequently Asked Questions

Question: May a voter under 65 years of age submit an Annual ABBM if the voter will turn 65 before the first election in which he/she will vote by mail?

Answer: Yes, Section 82.003 of the Election Code states that a voter must be “65 years of age or older on election day” to vote early by mail.

Frequently Asked Questions

Question: The voter submitted an application on the ground of being outside of the county of residence using the official ABBM provided by the Secretary of State. However, the voter did not provide the dates that they are out of the county on the official application. Should the application be rejected on those grounds?

Answer: No, the application should not be rejected, assuming that the application included all other legally required information. Section 84.002 of the Election Code, which provides the law regarding the contents of an application, does not require a voter to provide the dates the voter will be out of the county.

Frequently Asked Questions

Question: May a voter request ballots for more than one election if their reason for voting by mail is expected absence from the county? (Ex: voter will be out of the county January through May and requests ballots for both the primary and May elections).

Answer: Yes, if the voter's application indicates that they will be out of the county for a time period that covers multiple elections, the voter may use a single application to request to receive all ballots the voter is eligible for during the time period that the voter will be out of the county.

Frequently Asked Questions

Question: A voter submitted an ABBM and provided two grounds for voting by mail. In this example, the voter selected voting by mail on the grounds of being 65 years of age or older and disability. The voter selected the “Annual Application” box on the application. Should the application be rejected and the voter notified of a defect because the EV clerk cannot determine which eligibility ground the voter is using?

Answer: No, the application should not be rejected if it was otherwise properly completed. In this example, the voter has selected two eligibility grounds which allow the voter to submit an Annual ABBM. The EV clerk should select one of the grounds.

Frequently Asked Questions

Question: What if a voter does not check ANY boxes indicating for which election(s) they wish to receive a ballot?

Answer: It depends on the elections within that calendar year. If the Annual ABBM voter did not select any elections during a primary election year (e.g., 2026), and the voter did not select which party's ballot they would like to receive, the EV clerk should reject the ABBM for purposes of the primary election, but otherwise process the application as an Annual ABBM. The EV clerk should notify the voter of the rejection of the ABBM as it applies to the primary election, but also check the box that indicates the application will be considered an Annual ABBM. If it is an odd-numbered year (e.g., 2027), and the Annual ABBM voter did not select any elections, the application would be considered an Annual ABBM and processed accordingly.

Frequently Asked Questions

Question: What if a voter submitted an application on the ground of age or disability but did not select the “Annual Application” option on the form and only requested a ballot for the primary election and the general election for state and county officers (during a primary election year). Specifically, the voter opted not to mark the May Uniform election date.

Answer: If a voter only requested a mail ballot for selected elections but did not select the annual option on the form, in this case the primary election and the general election for state and county officers, you would *NOT* treat this as an Annual ABBM. Instead, you would treat this as a request for the specific elections identified by the voter.

Frequently Asked Questions

Question: The EV clerk received a single-use ABBM from a voter but the voter did not indicate that he/she wanted a ballot for any resulting runoff. Our political subdivision is conducting a runoff election. Should a ballot be mailed to the voter for the runoff election?

Answer: No, a ballot should not be mailed to the voter for the runoff election. An applicant for a ballot to be voted by mail may apply for ballots for the main election and any resulting runoff election on the same application. However, a ballot for the runoff election should not be mailed to the voter if the voter did not request a ballot for any resulting runoff on the single-use ABBM.

Frequently Asked Questions

Question: How many Annual ABBMs may a person witness in a calendar year?

Answer: Unless a close relative of the voter (e.g., parent, grandparent, spouse, child, sibling) or an EV clerk or deputy EV clerk, a person may witness one single-use ABBM per election in a calendar year, or one Annual ABBM for the entire calendar year. *NOTE:* A violation of this law does not invalidate the ABBM.

Frequently Asked Questions

Question: The EV clerk received an application that reflects that the voter received assistance in completing the application. However, the assistant did not provide their signature/printed name and/or residence address. May the application be accepted?

Answer: Yes, the application may be accepted. Mistakes with respect to completing the assistance portion on an ABBM do not cause rejection of the application. However, a person who in the presence of the applicant otherwise assists an applicant in completing an early voting ballot application commits a Class A misdemeanor offense if the person knowingly fails to comply with Section 1.011(d) of the Election Code in the same manner as a witness.
