Legislation & Executive Order

Legislation

- **Key Bills to Review**

- SB 1540
- SB 2217
- SB 985
- SB 506
- HB 3909
- HB 521
- SB 2964
- SB 2166
- SB 827
- SB 901
- *SB 2753*

Executive Order

- [Preserving and Protecting the Integrity of American Elections](#)
 - Issued on March 25, 2025
- An executive order is a directive to federal agencies to take certain actions. These actions include:
 - Amending the National Voter Registration Form and FPCA
 - Providing free access to federal databases that help verify eligibility
 - Enforcing Ballot by Mail Deadlines for Federal Elections
 - Directing the EAC to issue guidance and modify voting system standards to address voting systems that use ballots where votes are contained within a barcode.

Ballot on Demand Systems

- Can be used to allow voters to use voter-marked ballots as a primary method of voting in conjunction with accessible ballot marking devices
 - If ballot on demand is used for voters in the polling place, it would also be used for curbside voting, with the accessible BMDs available to voters who need them
- Countywide polling place program allows for the use of ballot on demand systems in conjunction with precinct scanners at the polling place
- No formal certification program for ballot on demand systems
 - However, our office reviews these systems in cooperation with vendors and/or as part of certification of pollbook peripheral devices. Vendors would also be required to register with the SOS as a Ballot Print Vendor

TEAM

TEAM: A New Beginning

- Development began on the new iteration of the TEAM system in late 2023.
- The process has included intensive requirements gathering based on state and federal law.
- The technical development has been focused on:
 - Ensuring the highest level of **information security** through the implementation of the industry security protocols, system management and security monitoring.
 - Integrating new technologies to provide more **efficient and effective system functionality** to protect the accuracy and integrity of system data.
 - Deploying a **more robust environment** to meet county user needs.

TEAM: A New Beginning

- Data conversion has been an detailed and ongoing process and will continue until the new system is deployed for state use.
- Our office has been accessing the initial environment to extensively test the development efforts in terms of functionality and legal procedural requirements.
- Training materials are being created and finalized in preparation for the transition from the current system to the new system.
- Implementation plans for the deployment of the new system and technical support for county users have been carefully developed with the county users in mind.

TEAM: Phased Implementation Approach

- The “Go-Live” date for system deployment is anticipated for July 11, 2025.
- The various modules within the system will be rolled out in phases to allow for:
 - A prioritization or focused implementation plan based on voter registration and election management needs;
 - More in-depth user training one area at a time;
 - Identification and troubleshooting of any transitional issues;
 - Ensuring the integrity of county data; and
 - Development and implementation of any legislative system changes that are need following the legislative session.
