Notice and Opportunity to Comment on Requests for Consistency Agreement/Concurrence Under the Texas Coastal Management Program

On January 10, 1997, the State of Texas received federal approval of the Coastal Management Program (CMP) (62 *Federal Register* pp. 1439 - 1440). Under federal law, federal agency activities and actions affecting the Texas coastal zone must be consistent with the CMP goals and policies identified in 31 TAC Chapter 26. Requests for federal consistency review were deemed administratively complete for the following project(s) during the period of February 23, 2026 to February 27, 2026. As required by federal law, the public is given an opportunity to comment on the consistency of proposed activities in the coastal zone undertaken or authorized by federal agencies. Pursuant to 31 TAC §§30.20(f), 30.30(h), and 30.40(e), the public comment period extends 30 days from the date published on the Texas General Land Office web site. The notice was published on the web site on Friday, March 6, 2026. The public comment period for this project will close at 5:00 p.m. on Sunday, April 5, 2026.

Federal License and Permit Activities:

Applicant: Vopak Terminal Deer Park

Location: The project would affect waters of the United States and navigable waters of the United States associated with Buffalo Bayou located at 2759 Independence Parkway South, Deer Park, Harris County, Texas.

Latitude and Longitude: 29.7464723, -95.0970876

Project Description: The purpose of the project is to extend the maintenance dredging time frames to remove 150,000 cubic yards (CY) from 9.1 acres of the Houston Ship Channel to allow for safer navigation. The applicant proposes to amend the previously authorized hydraulic, mechanical and silt blading dredged depths of -48.5 feet Mean Lower Low Water (MLLW) for Docks 1-5, and -14.5 feet MLLW for Barge Docks 1, 2, 4, and 6. The maintenance dredging is estimated to remove 150,000 CY of material every three years. The maintenance dredged material will be placed in the previously authorized Dredge Material Placement Areas (DMPAs): Lost Lake, Peggy Lake, Alexander Island, Beltway 8, and Texas Deepwater Partners (formerly Glanville). The additional DMPAs are all Federally authorized and constructed upland contained dredged material placement areas, East and West Jones, and Avera. The amendment consists of a 10-year extension of time for the mechanical and hydraulic dredging and a 5-year extension of time for the silt blade dredging. The applicant has provided the following explanation why compensatory mitigation should not be required: No compensatory mitigation is proposed since there will be no permanent impacts to aquatic resources.

Type of Application: U.S. Army Corps of Engineers permit application # SWG-2007-00247. This application will be reviewed pursuant Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act. Note: The consistency review for this project

may be conducted by Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act.

CMP Project No: 26-1092-F1

Further information on the applications listed above, including a copy of the consistency certifications or consistency determinations for inspection, may be obtained from the Texas General Land Office Public Information Officer at 1700 N. Congress Avenue, Austin, Texas 78701, or via email at pialegal@glo.texas.gov. Comments should be sent to the Texas General Land Office Coastal Management Program Coordinator at the above address or via email at federal.consistency@glo.texas.gov.

Notice of Funds Availability - Texas Coastal Management Program

The General Land Office (GLO) and the Coastal Coordination Advisory Committee (CCAC) file this Notice of Funds Availability to announce upcoming federal grant funds provided by the National Oceanic and Atmospheric Administration (NOAA) and state grant funds provided by the Gulf of Mexico Energy Security Act (GOMESA) to the Texas Coastal Management Program (CMP). The purpose of the CMP is to improve the management of the state's coastal resources and ensure the long-term ecological and economic productivity of the coast.

A federal award from NOAA to the CMP, approximating \$2 million, is expected in October 2027 and state GOMESA funds are expected in April 2027. The GLO, the agency responsible for administering the CMP with the advisement of the CCAC, will pass through the funding to eligible entities to support projects that implement and/or advance the CMP goals and policies. Projects must be located within the coastal zone boundary established by the Texas Legislature in 1995.

The following entities are eligible to receive grants under the CMP.

- Incorporated cities within the coastal zone boundary
- County governments within the coastal zone boundary
- Texas state agencies
- Texas public colleges/universities
- Subdivisions of the state with jurisdiction within the coastal zone boundary (e.g., navigation districts, port authorities, river authorities, and soil and water conservation districts)
- Councils of governments and other regional governmental entities within the coastal zone boundary
- The Galveston Bay Estuary Program
- The Coastal Bend Bays and Estuaries Program
- Nonprofit Organizations that are registered as a 501(c)(3) or 501(c)(4) and have an office located in Texas.

The GLO and the CCAC will accept applications for NOAA-funded and GOMESA-funded projects through a competitive application process. Projects must address at least one of the CMP funding priorities listed in the CMP Cycle 32 Guidance document.

The GLO will hold three in-person and one virtual grant workshops to provide information on the funding priorities, outline application requirements, and give potential applicants the opportunity to discuss

specific project ideas with GLO staff. Applicants are not required to attend a workshop, but attendance is strongly encouraged. Identical information will be presented at all four workshops.

Licensing Actions for Radioactive Materials

During the first half of February 2026, the Department of State Health Services (Department) has taken actions regarding Licenses for the possession and use of radioactive materials as listed in the tables (in alphabetical order by location). The subheading "Location" indicates the city in which the radioactive material may be possessed and/or used. The location listing "Throughout TX [Texas]" indicates that the radioactive material may be used on a temporary basis at locations throughout the state.

In issuing new licenses and amending and renewing existing licenses, the Department's Radiation Section has determined that the applicant has complied with the licensing requirements in Title 25 Texas Administrative Code (TAC), Chapter 289, for the noted action. In granting termination of licenses, the Department has determined that the licensee has complied with the applicable decommissioning requirements of 25 TAC, Chapter 289. In granting exemptions to the licensing requirements of Chapter 289, the Department has determined that the exemption is not prohibited by law and will not result in a significant risk to public health and safety and the environment.

A person affected by the actions published in this notice may request a hearing within 30 days of the publication date. A "person affected" is defined as a person who demonstrates that the person has suffered or will suffer actual injury or economic damage and, if the person is not a local government, is (a) a resident of a county, or a county adjacent to the county, in which radioactive material is or will be located, or (b) doing business or has a legal interest in land in the county or adjacent county. 25 TAC §289.205(b)(15); Health and Safety Code §401.003(15). Requests must be made in writing and should contain the words "hearing request," the name and address of the person affected by the agency action, the name and license number of the entity that is the subject of the hearing request, a brief statement of how the person is affected by the action what the requestor seeks as the outcome of the hearing, and the name and address of the attorney if the requestor is represented by an attorney. Send hearing requests by mail to: Hearing Request, Radioactive Material Licensing, MC 2835, PO Box 149347, Austin, Texas 78714-9347, or by fax to: (512) 206-3760, or by e-mail to: RAMlicensing@dshs.texas.gov.

Notes and Comments

Comment to 1990 change: This amendment provides a mechanism for using previously non-filed discovery in summary judgment practice. Such proofs must all be filed in advance of the hearing in accordance with Rule 166a. Paragraphs (d) through (g) are renumbered (e) through (h).

Comment to 1997 change: This comment is intended to inform the construction and application of the rule. Paragraph (i) authorizes a motion for summary judgment based on the assertion that, after adequate opportunity for discovery, there is no evidence to support one or more specified elements of an adverse party’s claim or defense. A discovery period set by pretrial order should be adequate opportunity for discovery unless there is a showing to the contrary, and ordinarily a motion under paragraph (i) would be permitted after the period but not before. The motion must be specific in challenging the evidentiary support for an element of a claim or defense; paragraph (i) does not authorize conclusory motions or general no-evidence challenges to an opponent’s case. Paragraph (i) does not apply to ordinary motions for summary judgment under paragraphs (a) or (b), in which the movant must prove it is entitled to judgment by establishing each element of its own claim or defense as a matter of law or by negating an element of the respondent’s claim or defense as a

matter of law. To defeat a motion made under paragraph (i), the respondent is not required to marshal its proof; its response need only point out evidence that raises a fact issue on the challenged elements. The existing rules continue to govern the general requirements of summary judgment practice. A motion under paragraph (i) is subject to sanctions provided by existing law (Tex Civ. Prac. & Rem. Code §§ 9.001-10.006) and rule (Tex R. Civ. P. 13). The denial of a motion under paragraph (i) is no more reviewable by appeal or mandamus than the denial of a motion under paragraph (c).

Comment to 2026 change: Rule 166a is rewritten to implement section 23.303 of the Texas Government Code and to modernize the rule. Other than the deadline changes, Rule 166a's rewrite is not intended to substantively change the law.
