Combined Notice of Public Meeting and Notice of Application and Preliminary Decision for Water Quality Land Application Permit for Municipal Wastewater New Permit No. WQ0016789001

APPLICATION AND PRELIMINARY DECISION. James Gregory Coontz and Cathy Ann Frederick, 217 Market Street, Burleson, Texas 76028, have applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016789001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 225,000 gallons per day. TCEQ received this application on April 15, 2025.

The facility will be located approximately 2.7 miles east of the intersection of Farm-to-Market Road 1187 and Interstate Highway 35W, in Tarrant County, Texas 76028. The treated effluent will be discharged to an unnamed tributary, thence to Village Creek, thence to Lake Arlington in Segment No. 0828 of the Trinity River Basin. The unclassified receiving water uses are limited aquatic life use for the unnamed tributary and high aquatic life use for Village Creek. The designated uses for Segment No. 0828 are primary contact recreation, public water supply, and high aquatic life use. In accordance with 30 Texas Administrative Code §307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. This review has preliminarily determined that no water bodies with exceptional, high, or intermediate aquatic life uses are present within the stream reach assessed; therefore, no Tier 2 degradation determination is required. No significant degradation of water quality is expected in waterbodies with exceptional, high, or intermediate aquatic life uses downstream, and existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that

this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Crowley Public Library, 409 South Oak Street, Crowley, in Tarrant County, Texas. The application is available for viewing and copying at the following webpage: <https://www.tceq.texas.gov/permitting/wastewater/pending-permits/tpdes-applications>.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The TCEQ will hold a public meeting on this application because it was requested by a local representative.

The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. A written response to all timely, relevant and material, or significant comments will be prepared by the Executive Director. All formal comments will be considered before a decision is reached on the permit application. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

Thursday, June 18, 2026 at 7:00 p.m.

Forest Hill Civic and Convention Center

6901 Wichita Street

Forest Hill, Texas 76140

Persons with disabilities who need special accommodations at the meeting should call the Office of the Chief Clerk at (512) 239-3300 or (800) RELAY-TX (TDD) at least five business days prior to the meeting.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision.** A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

Notice of Opportunity to Comment on a Shutdown/Default Order of an Administrative Enforcement Action

The Texas Commission on Environmental Quality (TCEQ or commission) staff is providing an opportunity for written public comment on the listed Shutdown/Default Order (S/DO). Texas Water Code (TWC), §26.3475, authorizes the commission to order the shutdown of any underground storage tank (UST) system found to be noncompliant with release detection, spill and overflow prevention, and/or, after December 22, 1998, cathodic protection regulations of the commission, until such time as the owner/operator brings the UST system into compliance with those regulations. The commission proposes a Shutdown Order after the owner or operator of a UST facility fails to perform required corrective actions within 30 days after receiving notice of the release detection, spill, and overflow prevention, and/or after December 22, 1998, cathodic protection violations documented at the facility. The commission proposes a Default Order when the staff has sent an Executive Director's Preliminary Report and Petition (EDPRP) to an entity outlining the alleged violations, the proposed penalty, the proposed technical requirements necessary to bring the entity back into compliance, and the entity fails to request a hearing on the matter within 20 days of its receipt of the EDPRP or requests a hearing and fails to participate at the hearing. In accordance with TWC, §7.075, this notice of the proposed order and the opportunity to comment is published in the *Texas Register* no later than the 30th day before the date on which the public comment period closes, which in this case is **June 16, 2026**. The commission will consider any written comments received and the commission may withdraw or withhold approval of an S/DO if a comment discloses facts or considerations that indicate that consent to the proposed S/DO is inappropriate, improper, inadequate, or inconsistent with the requirements of the statutes and rules within the commission's jurisdiction, or the commission's orders and permits issued in accordance with the commission's regulatory authority. Additional notice of changes to a proposed S/DO is not required to be published if those changes are made in response to written comments.

A copy of the proposed S/DO is available for public inspection at both the commission's central office, located at 12100 Park 35 Circle, Building A, 3rd Floor, Austin, Texas 78753, (512) 239-3400 and at the applicable regional office listed as follows. The docks would each consist of a steel sheet pile bulkhead and breasting structure, which would include dead man/bulkhead tiebacks, walers, fenders, and pile caps. Each dock would have 10 mooring structures made of 8-foot-wide monopiles with 10-foot-wide bollards, and a loading arm at the center of each dock. Walkways would be constructed to access each dock. Project activities would result in the discharge of material into approximately 0.589 acres of open water, 0.546 acres of intertidal mud flats, and 0.095 acres of seagrass. Project activities would result in temporary impacts to 1.281 acres of open water and 1.236 acres of intertidal mud flats.

An approximately 48-acre area adjacent to the La Quinta Channel would be mechanically or hydraulically dredged to a depth of -50 feet MLLW, resulting in the removal of approximately 3,508,000 cubic yards of material. Dredging would impact 0.078 acres of intertidal mud flats and 0.174 acres of seagrass.

The applicant has stated that they have avoided and minimized environmental impacts to waters of the United States associated with the proposed activity by minimizing the amount of fill to the greatest extent practicable and designing the project layout in a manner to minimize impacts to delineated resources. Temporarily impacted areas would be restored as near as possible to pre-emergency conditions. The applicant has not proposed compensatory mitigation at this time but has stated that they will perform all mitigation required by USACE. The USACE will determine the type and amount of compensatory mitigation necessary to offset losses of waters of the United States which may result from the proposed activity in accordance with 33 CFR §332.

Type of Application: U.S. Army Corps of Engineers permit application #SWG-2025-00662. This application will be reviewed pursuant Section 404 of the Clean Water Act, and Sections 10 and 14 of the Rivers and Harbors Act of 1899. Note: The consistency review for this project may be conducted by The Texas Commission on Environmental Quality as part of its certification under §401 of the Clean Water Act. The U.S. Army Corps of Engineers Galveston District has found that this permit request meets the terms of Executive Order 14156 and is therefore subject to special emergency permitting procedures and an expedited review process.

Notwithstanding any name or names submitted on a claim form, the Executive Director shall make payment to the player whose signature appears on the back of the Scratch Ticket in the space designated. If more than one name appears on the back of the Scratch Ticket, the Executive Director will require that one of those players whose name appears thereon be designated by such players to receive payment.

B. The Texas Lottery shall not be responsible for lost or stolen Scratch Tickets and shall not be required to pay on a lost or stolen Scratch Ticket.
