Texas Water Code and Texas Health and Safety Code Settlement Notice

Notice is hereby given by the State of Texas of the following proposed resolution of an environmental enforcement action under the Texas Water Code and the Texas Health and Safety Code. Before the State may enter into a voluntary settlement agreement, pursuant to section 7.110 of the Texas Water Code, the State shall permit the public to comment in writing on the proposed judgment. The Attorney General will consider any written comments and may withdraw or withhold consent to the proposed agreed judgment if the comments disclose facts or considerations that indicate that the consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Texas Water Code.

Case Title and Court: *Harris County, Texas, and the State of Texas, acting by and through the Texas Commission on Environmental Quality, a Necessary and Indispensable Party v. Casa Del Mar Apartments, LLC*; Cause No. 2024-33842, in the 189th Judicial District, Harris County, Texas.

Nature of the Suit: Casa Del Mar owns and operates a 354-unit apartment complex at 2431 Farm to Market 1960 Road West in Houston. Between May 2023 and March 2024, Harris County Pollution Control Services documented multiple unauthorized sewage discharges at the Site, resulting in pooled sewage in the parking lot and overflows into municipal storm drains that empty into Cypress Creek. The investigations identified 23 violations for unauthorized discharges into waters of the State and one violation for improper storage of municipal solid waste. Harris County filed suit for violations of the Texas Water Code, Texas Health and Safety Code, and Harris County stormwater regulations, naming the State as a necessary party under Texas Water Code §7.353. On September 20, 2024, the parties entered an Agreed Temporary Injunction requiring Casa Del Mar to retain a third-party auditor to inspect the sewer system and recommend repairs. Casa Del Mar complied and spent at least $177,719.68 implementing the recommended corrective actions.

Proposed Settlement: The proposed Agreed Final Judgment includes injunctive relief requiring Casa Del Mar, for a period of one year after the Effective Date, to report any unauthorized discharges at the Site within 48 hours, and to submit monthly reports documenting unauthorized discharges, maintenance, and repairs conducted at the Site. The proposed settlement also assesses civil penalties in the amount of $65,000, to be equally divided between Harris County and the State; attorney's fees in the amount of $10,000, likewise split evenly; and $350 in court costs awarded to Harris County. Additionally, Plaintiffs may recover an additional $28,000 in civil penalties allocated equally between Harris County and the State if Casa Del Mar discharges sewage at the Site within one year of the Effective Date, unless Casa Del Mar shows that the discharge was cured within 48 hours and did not enter the municipal storm drain.

For a complete description of the proposed settlement, the complete proposed Agreed Final Judgment should be reviewed. Requests for copies of the judgment, and written comments on the proposed settlement, should be directed to Jordan Pratt, Assistant Attorney General, Office of the Attorney General, P.O. Box 12548, MC 066, Austin, Texas 78711-2548, phone (512) 463-2012, facsimile (512) 320-0911, or email: jordan.pratt@oag.texas.gov. Written comments must be received within 30 days of publication of this notice to be considered.

Texas Water Code and Texas Health and Safety Code Settlement Notice

Notice is hereby given by the State of Texas of the following proposed resolution of an environmental enforcement action under the Texas Water Code and the Texas Health and Safety Code. Before the State may enter into a voluntary settlement agreement, pursuant to section 7.110 of the Texas Water Code, the State shall permit the public to comment in writing on the proposed judgment. The Attorney General will consider any written comments and may withdraw or withhold consent to the proposed agreed judgment if the comments disclose facts or considerations that indicate that the consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Texas Water Code.

Case Title and Court: *Harris County, Texas, and the State of Texas, acting by and through the Texas Commission on Environmental Quality, a Necessary and Indispensable Party v. Torres Brothers Ready Mix, Inc., Eriberto Torres, Francisco Eusebio Torres, and Salvador De Jesus Torres*; Cause No. 2024-50594, in the 189th Judicial District, Harris County, Texas.

Nature of the Suit: Defendant Torres Brothers Ready Mix, Inc. ("Torres Brothers") operates a concrete batch plant located at 4247 Fuqua Street, Houston, Texas 77048 ("Facility"). The Facility operates under Texas Commission on Environmental Quality ("TCEQ") air and water permits. Over the course of multiple investigations conducted from March 30, 2021 through June 11, 2024, Harris County Pollution Control Services documented permit and waste violations at the Facility. On May 10, 2024, Torres Brothers forfeited its corporate existence, making all new and continuing violations attributable to its directors, Eriberto Torres, Francisco Eusebio Torres, and Salvador De Jesus Torres. On August 7, 2024, Harris County, Texas ("Harris County") filed suit against Torres Brothers, Eriberto Torres, Francisco Eusebio Torres, and Salvador De Jesus Torres (collectively, "Defendants") for violations of the Texas Health and Safety Code, Texas Water Code, TCEQ rules, and TCEQ permits. The State of Texas ("State"), acting on behalf of TCEQ, joined the lawsuit as a necessary and indispensable party. The State, Harris County, and the Defendants have reached an agreement to resolve the pending claims against the Defendants.

Proposed Settlement: The State, Harris County, and Defendants propose an Agreed Final Judgment that awards the State and Harris County the following monetary judgments against the Defendants: $173,618.00 in civil penalties, to be divided equally between the State and Harris County; $13,000.00 in attorney's fees to the State;

$13,000.00 in attorney's fees to Harris County; and $382.00 in court costs to Harris County. The amounts awarded will be paid in 25 monthly installments.

For a complete description of the proposed settlement, the proposed Agreed Final Judgment should be reviewed in its entirety. Requests for copies of the proposed judgment, and written comments on the proposed settlement, should be directed to Haley Marlow, Assistant Attorney General, Office of the Attorney General, P.O. Texas Education Agency

Request for Applications Concerning Generation Thirty-Two Open-Enrollment Charter Application for Colleges and Universities

Filing Authority. Texas Education Code (TEC), §12.152

Eligible Applicants. The Texas Education Agency (TEA) is requesting applications under request for applications (RFA) #701-27-102 from eligible entities to operate open-enrollment charter schools. Eligible entities are limited to Texas public colleges or universities and Texas public junior colleges. The supervising faculty member with oversight of the college of education requesting the charter must attend one required applicant information session webinar. For more information, visit our Charter Application website at https://tea.texas.gov/school-and-district-information/texas-schools-charter-schools/charter-school-applicants.

The webinar will also be recorded and made available publicly; however, failure to attend at least one of the mandatory webinars will disqualify an applicant from further consideration during the Generation Thirty-Two application cycle.

Description. The purpose of an open-enrollment charter is to provide an alternative avenue for restructuring schools. An open-enrollment charter school offers flexibility and choice for educators, parents, and students. A public senior college or university, or public junior college open-enrollment charter school may operate on a campus of the public college or university, or public junior college or in the same county in which the public college or university, or public junior college is located and under certain circumstances elsewhere in the state.

An open-enrollment charter school will provide instruction to students at one or more elementary or secondary grade levels as provided by the charter. An open-enrollment charter school must be nonsectarian in its programs, admissions, policies, employment practices, and all other operations and may not be affiliated with a sectarian school or religious institution. It is governed under the specifications of the charter and retains authority to operate for the term of the charter contingent on satisfactory student performance as defined by the state accountability system. An open-enrollment charter school does not have the authority to impose taxes.

An open-enrollment charter school is subject to federal laws and certain state laws governing public schools, including laws and rules relating to a criminal offense, requirements relating to the Texas Student Data System, Public Education Information Management System, criminal history records, high school graduation, special education programs, bilingual education, prekindergarten programs, extracurricular activities, health and safety provisions, and public school accountability. As stated in TEC, §12.1056, in matters related to operation of an open-enrollment charter school, an open-enrollment charter school or charter holder is immune from liability and suit to the same extent as a school district, and the employees and volunteers of the open-enrollment charter school or charter holder are immune from liability and suit to the same extent as school district employees and volunteers. A member of the governing body of an open-enrollment charter school or of a charter holder is immune from liability and suit to the same extent as a school district trustee. TEC, §12.1057, states that an employee of an open-enrollment charter school who qualifies for membership in the Teacher Retirement System of Texas shall be covered under the system to the same extent a qualified employee of a school district is covered.

Dates of Project. The electronic version of the completed application must be submitted to TEA by 5:00 p.m. (Central Time), Thursday, November 12, 2026, to be eligible for review.

Project Amount. TEC, §12.106, specifies the following.

(a) Effective September 1, 2019, a charter holder is entitled to receive for the open-enrollment charter school funding under TEC, Chapter 48, equal to the amount of funding per student in weighted average daily attendance, excluding the adjustment under TEC, §48.052, the funding under TEC, §§48.101, 48.110, and 48.111, and enrichment funding under TEC, §48.202(a), to which the charter holder would be entitled for the school under TEC, Chapter 48, if the school were a school district without a tier one local share for purposes of TEC, §48.266.

(a-1) In determining funding for an open-enrollment charter school under subsection (a), the amount of the allotment under TEC, §48.102, is based solely on the basic allotment to which the charter holder is entitled and does not include any amount based on the allotment under TEC, §48.101.

(a-2) In addition to the funding provided by subsection (a), a charter holder is entitled to receive for the open-enrollment charter school an allotment per student in average daily attendance in an amount equal to the difference between the product of the quotient of the total amount of funding provided to eligible school districts under TEC, §48.101(b) or (c); and the total number of students in average daily attendance in school districts that receive an allotment under TEC, §48.101(b) or (c); and the sum of one and the quotient of the total number of students in average daily attendance in school districts that receive an allotment under TEC, §48.101(b) or (c); and the total number of students in average daily attendance in school districts statewide; and $300.

(a-3) In addition to the funding provided by subsections (a) and (a-2), a charter holder is entitled to receive for the open-enrollment charter school enrichment funding under TEC, §48.202, based on the state average tax effort.

(a-4) In addition to the funding provided by subsections (a), (a-2), and (a-3), a charter holder is entitled to receive funding for the open-enrollment charter school under TEC, §48.110 and §48.112, and TEC, Chapter 48, Subchapter D, if the charter holder would be entitled to the funding if the school were a school district. In addition, under TEC §48.109(a), a charter school is entitled to an annual allotment equal to the basic allotment multiplied by 0.07 for each school year or a greater amount provided by appropriation for each identified student in a program for gifted and talented students that the charter school certifies to the commissioner as complying with Subchapter D, Chapter 29.

TEC, §12.106(b), provides that an open-enrollment charter school is entitled to funds that are available to school districts from TEA or the commissioner of education in the form of grants or other discretionary funding unless the statute authorizing the funding explicitly provides that open-enrollment charter schools are not entitled to the funding. In addition, TEC, Chapter 12, states that an open-enrollment charter school may not charge tuition and must admit students based on a lottery if more students apply for admission than can be accommodated. An open-enrollment charter school must prohibit discrimination in admission policy on the basis of sex; national origin; ethnicity; religion; disability; academic, artistic, or athletic ability; or the district the child would otherwise attend. However, a charter school that specializes in the performing arts may require an applicant to audition. The charter may provide for the exclusion of a student who has a documented history of a criminal offense, juvenile court adjudication, or a discipline problem under TEC, Chapter 37, Subchapter A.

Selection Criteria. A complete description of selection criteria is included in the RFA.

The commissioner may approve open-enrollment charter schools as provided in TEC, §12.101 and §12.152. There is no cap on the number of charters approved under TEC, §12.152. The commissioner is scheduled to consider awards under RFA #701-27-102 in May 2027.

The commissioner may approve applicants to ensure representation of urban, suburban, and rural communities; various instructional settings; innovative programs; diverse student populations and geographic regions; and various eligible entities. The commissioner will consider Statements of Impact from any school district whose enrollment is likely to be affected by the open-enrollment charter school. The commissioner may also consider the history of the sponsoring entity and the credentials and background of its board members. The commissioner may not award a charter to an entity that has within the preceding 10 years had a charter revoked, non-renewed, or surrendered. The commissioner will not consider an application submitted by an individual that is substantially related to an entity that has within the preceding 10 years had a charter revoked, non-renewed, or surrendered.

Requesting the Application. An application must be submitted under commissioner guidelines to be considered. A complete copy of the publication College or University Generation Thirty-Two Open-Enrollment Charter Application (RFA #701-27-102), which includes an application and guidance, may be obtained on the TEA website at https://tea.texas.gov/school-and-district-information/texas-schools-charter-schools/charter-school-applicants.

An open-enrollment charter school must prohibit discrimination in admission policy on the basis of sex; national origin; ethnicity; religion; disability; academic, artistic, or athletic ability; or the district the child would otherwise attend. However, a charter school that specializes in

the performing arts may require an applicant to audition. The charter may provide for the exclusion of a student who has a documented history of a criminal offense, juvenile court adjudication, or a discipline problem under TEC, Chapter 37, Subchapter A.

Selection Criteria. A complete description of selection criteria is included in the RFA.

The commissioner may approve open-enrollment charter schools as provided in TEC, §12.101. The commissioner is scheduled to consider awards under RFA #701-27-104 in accordance with the timeline detailed in the Instructions and Guidance Document.

The commissioner may approve applicants to ensure representation of urban, suburban, and rural communities; various instructional settings; innovative programs; diverse student populations and geographic regions; and various eligible entities. The commissioner will consider Statements of Impact from any school district whose enrollment is likely to be affected by the open-enrollment charter school. The commissioner may also consider the history of the sponsoring entity and the credentials and background of its board members. The commissioner may not award a charter to an entity that has within the preceding 10 years had a charter revoked, non-renewed, or surrendered. The commissioner will not consider an application submitted by an individual that is substantially related to an entity that has within the preceding 10 years had a charter revoked, non-renewed, or surrendered.

Requesting the Application. An application must be submitted under commissioner guidelines to be considered. Request for Applications Concerning Generation Thirty-Two Open-Enrollment Charter Application for New Operators

Filing Authority. Texas Education Code (TEC), §12.101

Eligible Applicants. The Texas Education Agency (TEA) is requesting applications under request for applications (RFA) 701-27-103 from eligible entities to operate open-enrollment charter schools. Eligible entities include public institutions of higher education, private or independent institutions of higher education, organizations exempt from taxation under the Internal Revenue Code of 1986 (26 United States Code, §501(c)(3)), or governmental entities. At least one member of the applicant team must attend one required applicant information session webinar. In addition, the board president of the sponsoring entity, if identified, must attend. For more information, visit our Charter Application website at https://tea.texas.gov/school-and-district-information/texas-schools-charter-schools/charter-school-applicants.

The webinar will also be recorded and made available publicly; however, failure to attend at least one of the mandatory webinars will disqualify an applicant from further consideration during the Generation Thirty-Two application cycle.

Description. The purpose of an open-enrollment charter is to provide an alternative avenue for restructuring schools. An open-enrollment charter school offers flexibility and choice for educators, parents, and students. An approved open-enrollment charter school may be located in a facility of a commercial or nonprofit entity or in a school district facility. If the open-enrollment charter school is to be located in a school district facility, it must be operated under the terms established by the board of trustees or governing body of the school district in an agreement between the charter school and the district.

An open-enrollment charter school will provide instruction to students at one or more elementary or secondary grade levels as provided by the charter. An open-enrollment charter school must be nonsectarian in its programs, admissions, policies, employment practices, and all other operations and may not be affiliated with a sectarian school or religious institution. It is governed under the specifications of the charter and retains authority to operate for the term of the charter contingent on satisfactory student performance as defined by the state accountability system. An open-enrollment charter school does not have the authority to impose taxes.

An open-enrollment charter school is subject to federal laws and certain state laws governing public schools, including laws and rules relating to a criminal offense, requirements relating to the Texas Student Data System, Public Education Information Management System, criminal history records, high school graduation, special education programs, bilingual education, prekindergarten programs, extracurricular activities, health and safety provisions, and public school accountability. As stated in TEC, §12.1056, in matters related to operation of an open-enrollment charter school, an open-enrollment charter school or charter holder is immune from liability and suit to the same extent as a school district, and the employees and volunteers of the open-enrollment charter school or charter holder are immune from liability and suit to the same extent as school district employees and volunteers. A member of the governing body of an open-enrollment charter school or of a charter holder is immune from liability and suit to the same extent as a school district trustee. TEC, §12.1057, states that an employee of an open-enrollment charter school who qualifies for membership in the Teacher Retirement System of Texas shall be covered under the system to the same extent a qualified employee of a school district is covered.

Dates of Project. An electronic version of the completed application must be submitted to TEA by 5:00 p.m. (Central Time), Thursday, November 12, 2026, to be eligible for review.

Project Amount. TEC, §12.106, specifies the following.

(a) A charter holder is entitled to receive the open-enrollment charter school funding under TEC, Chapter 48, equal to the amount of funding per student in weighted average daily attendance, excluding the adjustment under TEC, §48.052, the funding under TEC, §§48.101, 48.110, and 48.111, and enrichment funding under TEC, §48.202(a), to which the charter holder would be entitled for the school under TEC, Chapter 48 if the school were a school district without a tier one local share for purposes of TEC, §48.266.

(a-1) In determining funding for an open-enrollment charter school under subsection (a), the amount of the allotment under TEC, §48.102, is based solely on the basic allotment to which the charter holder is entitled and does not include any amount based on the allotment under TEC, §48.101.

(a-2) In addition to the funding provided by subsection (a), a charter holder is entitled to receive for the open-enrollment charter school an allotment per student in average daily attendance in an amount equal to

the difference between the product of the quotient of the total amount of funding provided to eligible school districts under TEC, §48.101(b) or (c); and the total number of students in average daily attendance in school districts that receive an allotment under TEC, §48.101(b) or (c); and the sum of one and the quotient of the total number of students in average daily attendance in school districts that receive an allotment under TEC, §48.101(b) or (c); and the total number of students in average daily attendance in school districts statewide; and $300.

(a-3) In addition to the funding provided by subsections (a) and (a-2), a charter holder is entitled to receive for the open-enrollment charter school enrichment funding under TEC, §48.202, based on the state average tax effort.

(a-4) In addition to the funding provided by subsections (a), (a-2), and (a-3), a charter holder is entitled to receive funding for the open-enrollment charter school under TEC, §48.110 and §48.112, and TEC, Chapter 48, Subchapter D, if the charter holder would be entitled to the funding if the school were a school district. In addition, under TEC §48.109(a), a charter school is entitled to an annual allotment equal to the basic allotment multiplied by 0.07 for each school year or a greater amount provided by appropriation for each identified student in a program for gifted and talented students that the charter school certifies to the commissioner as complying with Subchapter D, Chapter 29.

TEC, §12.106(b), provides that an open-enrollment charter school is entitled to funds that are available to school districts from TEA or the commissioner of education in the form of grants or other discretionary funding unless the statute authorizing the funding explicitly provides that open-enrollment charter schools are not entitled to the funding. In addition, TEC, Chapter 12, states that an open-enrollment charter school may not charge tuition and must admit students based on a lottery if more students apply for admission than can be accommodated. An open-enrollment charter school must prohibit discrimination in admission policy on the basis of sex; national origin; ethnicity; religion; disability; academic, artistic, or athletic ability; or the district the child would otherwise attend. However, a charter school that specializes in the performing arts may require an applicant to audition. The charter may provide for the exclusion of a student who has a documented history of a criminal offense, juvenile court adjudication, or a discipline problem under TEC, Chapter 37, Subchapter A.

Selection Criteria. A complete description of selection criteria is included in the RFA.

The commissioner may approve open-enrollment charter schools as provided in TEC, §12.101. There is a cap of 305 charters approved under TEC, §12.101. The commissioner is scheduled to consider awards under RFA #701-27-103 in May 2027.

The commissioner may approve applicants to ensure representation of urban, suburban, and rural communities; various instructional settings; innovative programs; diverse student populations and geographic regions; and various eligible entities. The commissioner will consider Statements of Impact from any school district whose enrollment is likely to be affected by the open-enrollment charter school. The commissioner may also consider the history of the sponsoring entity and the credentials and background of its board members. The commissioner may not award a charter to an entity that has within the preceding 10 years had a charter revoked, non-renewed, or surrendered. The commissioner will not consider an application submitted by an individual that is substantially related to an entity that has within the preceding 10 years had a charter revoked, non-renewed, or surrendered.

Request for Applications Concerning Subchapter G Adult Education Charter Application

Filing Authority. Texas Education Code (TEC), §12.255

Eligible Applicants. The Texas Education Agency (TEA) is requesting applications under RFA #701-27-100 from eligible entities to operate adult education charter schools. Possible eligible entities include nonprofit entities; school districts; an entity granted a charter under TEC, Chapter 12, Subchapter D; general academic teaching institutions; public junior colleges; or public technical institutes, as defined by TEC, §61.003. The entity, or a member of the entity's executive leadership, must have a successful history of providing education services, including industry certifications and job placement services, to adults 18 years of age and older whose educational and training opportunities have been limited by educational disadvantages, disabilities, homelessness, criminal history, or similar marginalizing circumstances. For any of the above entities to be eligible the criteria named must be met in full, describing a history serving the identified adult learner populations as well as demonstrable success serving those populations. At least one member of the applicant team must attend one required applicant information session webinar. In addition, the board president of the entity, if identified, must attend. For more information, visit our Charter Application website at https://tea.texas.gov/school-and-district-information/texas-schools-charter-schools/charter-school-applicants.

The webinar will also be recorded and made available publicly; however, failure to attend at least one of the mandatory webinars will disqualify an applicant from further consideration during the Generation 32 application cycle.

Description. The purpose of an adult education charter is to meet industry needs for a sufficiently trained workforce within the state and strengthen the economic and educational prosperity of the state. The adult education charters must be designed to offer a high school program that can lead to a diploma and career and technology education courses that can lead to industry certification. The entity must demonstrate through the application process that the proposed school model complies with allowable provisions under state law and the specific provisions for adult education under TEC, §12.259. Those provisions include that the entity use an instructional model in which a significant portion of instruction, as approved by the commissioner of education, is delivered in a teacher-led, interactive classroom environment; provide access to career and technical education courses that lead to an industry certification, career readiness training, postsecondary counseling, and job-placement services; and provide support services to students, including child care at no cost to students, life coaching services at a ratio not to exceed one life coach for every 100 students that use strategic and holistic interventions designed to facilitate graduation planning

and assist students in overcoming life obstacles to achieve academic and career goals; mental health counseling; for students with identified disabilities or impairments, instructional support services; and transportation assistance. An adult high school charter program is subject to federal laws and certain state laws governing public schools, including laws and rules relating to a criminal offense, requirements relating to the Public Education Information Management System, criminal history records, high school graduation, special education programs, bilingual education, health and safety, requirements to report an educator's misconduct; and the right of an employee to report a crime. The commissioner will evaluate each adult education charter school annually according to the performance framework adopted specifically for these schools. The commissioner may revoke the charter if the charter's adult education program fails to meet the minimum performance standards established by commissioner rule on the applicable accountability framework for three consecutive school years after the second year of operation.

Dates of Project. An electronic version of the completed application must be submitted to TEA by 5:00 p.m. (Central Time), Thursday, October 29, 2026, to be eligible for review.

Project Amount. TEC, §12.263, specifies the following.

(a) Except as otherwise provided by this section, funding for an adult education program operated under a charter granted under this subchapter is an amount per participant through the Foundation School Program equal to the amount of state funding per student in weighted average daily attendance that would be allocated under the Foundation School Program for the student's attendance at an open-enrollment charter school in accordance with Section 12.106.

(b) For purposes of determining the average daily attendance of an adult education program operated under a charter granted under this subchapter, a student is considered to be in average daily attendance, with a 100 percent attendance rate, for: (1) all of the instructional days of the school year, if the student is enrolled for at least 75 percent of the school year; (2) three-quarters of the instructional days of the school year, if the student is enrolled for at least 50 percent but less than 75 percent of the school year; (3) half of the instructional days of the school year, if the student is enrolled for at least 25 percent but less than 50 percent of the school year; or (4) a quarter of the instructional days of the school year, if the student is enrolled for at least 10 percent but less than 25 percent of the school year.

(c) A student enrolled in an adult education program operated under a charter granted under this subchapter for less than 10 percent of a school year may not be counted toward the adult education program's average daily attendance for that school year.

(d) For purposes of the compensatory education allotment under TEC, §48.104, the commissioner shall: (1) permit an adult education program operated under a charter granted under this subchapter to give a final report at the end of each school year of students who were enrolled in the adult education program at any time during that school year and who qualify for that allotment; and (2) provide the allotment for each student reported under Subdivision (1) in an amount proportional to the duration of the student's enrollment in the adult education program.

(e) For purposes of the college, career, or military readiness outcomes bonus under TEC, §48.110, notwithstanding Subsection (f) of that section, an annual graduate of an adult education program operated under a charter granted under this subchapter demonstrates career readiness by earning an industry-accepted certificate not later than six months after completing the program.

(f) In addition to funding provided under Subsection (a), an eligible entity granted a charter under this subchapter is entitled to receive for the adult education program an annual allotment, provided in accordance with a schedule established by commissioner rule, equal to the maximum basic allotment under TEC, §48.051(a) or (b), multiplied by: (1) for each credit earned by a student enrolled in the adult education program during the preceding school year: (A) 0.01 for a course other than a career and technology education course; and (B) 0.02 for a career and technology education course; and (2) 0.1 for each student who successfully completed the adult education program and earned a high school diploma during the preceding school year.

(g) TEC, §12.107 and §12.128, apply as though funds under this section were funds under TEC, Subchapter D.

(h) Notwithstanding any other law, for purposes of any budget reductions requested by the Legislative Budget Board or the governor, any money received by a nonprofit entity granted a charter under this subchapter or appropriated to the agency for purposes of operating an adult education program under this subchapter is considered to be part of the foundation school program and is not subject to those budget reductions.

TEC, §12.258, specifies for admission that (a) A person who is at least 18 years of age and not more than 50 years of age is eligible to enroll in an adult education program operated under a charter granted under this subchapter if the person: (1) has failed to complete the curriculum requirements for high school graduation; or (2) has failed to perform satisfactorily on an assessment instrument required for high school graduation. (b) In admitting students to an adult education program operated under a charter granted under this subchapter, an eligible entity shall give priority to a person who has not earned a high school equivalency certificate.

Selection Criteria. A complete description of selection criteria is included in the RFA. The commissioner may approve adult high school charter schools as provided in TEC, §12.255. There are currently four adult education charters approved under TEC, §12.255. Pursuant to TEC, §12.255, the commissioner may not grant more than 10 charters under TEC, Chapter 12, Subchapter G. The commissioner is scheduled to consider awards under RFA #701-27-100 in March 2027.

Requesting the Application. An application must be submitted under commissioner guidelines to be considered. A complete copy of the publication Subchapter G Adult Education Charter Application (RFA #701-27-100), which includes an application and guidance, may be obtained on the TEA website at https://tea.texas.gov/school-and-district-information/texas-schools-charter-schools/charter-school-applicants.

APPLICATION AND PRELIMINARY DECISION. Fermi Equipment Holdco, LLC, 620 South Taylor Street, Suite 301, Amarillo, Texas 79101-2436, has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of proposed Air Quality Permit 183462, issuance of Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1704, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHGPSDTX271 for emissions of GHGs, which would authorize construction of the an electric generation facility located approximately 15 miles northeast of Amarillo along US Highway 60 near the intersection of US Highway 60 and Farm to-Market Road 2373 on north side of the road, Amarillo, Carson County, Texas 79068. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. **AVISO DE IDIOMA ALTERNATIVO.** El aviso de idioma alternativo en espanol está disponible en https://www.tceq.texas.gov/permitting/air/newsourcereview/airpermits-pendingpermit-apps. The proposed facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less, sulfur dioxide, and sulfuric acid mist. In addition, the facility will emit the following air contaminants: ammonia, hazardous air pollutants, and hydrogen sulfide.

The degree of PSD increment predicted to be consumed by the proposed facility and other increment-consuming sources in the area is as follows:

This application was submitted to the TCEQ on March 27, 2026. The executive director has determined that the emissions of air contaminants from the proposed facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Amarillo regional office, and at the Carson County Public Library, 401 Main Street, Panhandle, Carson County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Amarillo Regional Office, 5809 South Western Street, Suite 260, Amarillo, Texas. The application, including any updates, is available electronically at the following webpage: https://www.tceq.texas.gov/permitting/air/airpermit-applications-notices.

Issues that are not submitted in public comments may not be considered during a hearing.

EXECUTIVE DIRECTOR ACTION. The executive director may issue final approval of the application for the portion of the application for GHG PSD Air Quality Permit GHGPSDTX271. If a timely contested case hearing request is not received or if all timely contested case hearing requests are withdrawn regarding Air Quality Permit Number 183462 and for PSD Air Quality Permit Number PSDTX1704, the executive director may issue final approval of the application. The response to comments, along with the executive director's decision on the application will be mailed to everyone who submitted public comments or is on a mailing list for this application, and will be posted electronically to the CID. If any timely hearing requests are received and not withdrawn, the executive director will not issue final approval of the Air Quality Permit Number 183462 and for PSD Air Quality Permit Number PSDTX1704 and will forward the application and requests

APPLICATION AND PRELIMINARY DECISION. PMT Development, LLC, 5733 Travis Drive, Frisco, Texas 75034, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016684001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 300,000 gallons per day. TCEQ received this application on December 11, 2024.

PURPOSE OF COMBINED NOTICE: This Combined notice announces that the TCEQ Executive Director has completed the technical review of the application and prepared a draft permit, and that TCEQ will be holding a public meeting for members of the public to comment on the application. Please see the meeting information below.

DESCRIPTION OF FACILITY LOCATION AND DISCHARGE ROUTE. The domestic wastewater treatment facility will be located approximately 0.41 miles northeast of the intersection of County Road 221 and Neal Road, in Kaufman County, Texas 75126. The treated effluent will be discharged to an unnamed tributary, thence to Soil Conservation Service (SCS) Site 18r, thence to an unnamed tributary, thence to Big Brushy Creek, thence to Kings Creek, thence to Cedar Creek Reservoir in Segment No. 0818 of the Trinity River Basin. The unclassified receiving water uses are limited aquatic life use for the unnamed tributary, and high aquatic life use for the SCS Site 18r and Big Bushy Creek. The designated uses for Segment No. 0818 are primary contact recreation, public water supply, and high aquatic life use. In accordance with 30 Texas Administrative Code §307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in SCS Site 18r and Big Bushy Creek, which have been identified as having high aquatic life uses. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. A copy of the written response will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

OPPORTUNITY FOR A CONTESTED CASE HEARING. Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

Application and Draft Permit. Freeport LNG Development, L.P., 1500 Lamar St, Quintana, Texas 77541-8113, a Natural Gas Distribution facility, has applied to the TCEQ for a Significant Revision of Federal Operating Permit (herein referred to as permit) No. O2878, Application No. 39287 to authorize operation of the Freeport LNG Regas Facility and Liquefaction Plant. The area addressed by the application is located at 1500 Lamar St in Quintana, Brazoria County, Texas 77541-8113. This application was received by the TCEQ on November 4, 2025.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, will codify the conditions under which the site must operate. The TCEQ Executive Director recommends issuance of the draft permit. The purpose of a federal operating permit is to improve overall compliance with the rules governing air pollution control by clearly listing all applicable requirements, as defined in Title 30 Texas Administrative Code (30 TAC) §122.10. The permit will not authorize new construction or new emissions.

Notice and Comment Hearing. The hearing will be structured for the receipt of oral or written comments by interested persons. Registration and an informal discussion period with commission staff members will begin during the first 30 minutes. During the informal discussion period, the public is encouraged to ask questions and engage in open discussion with the applicant and the TCEQ staff concerning this application and draft permit. Issues raised during this discussion period will only be addressed in the formal response to comments if the issue is also presented during the hearing. After the conclusion of the informal discussion period, the TCEQ will conduct a notice and comment hearing regarding the application and draft permit. Individuals may present oral statements when called upon in order of registration. A reasonable time limit may be established at the hearing to assure that enough time is allowed for every interested person to speak. There will be no open discussion during the hearing. The purpose of this hearing will be to receive formal public comment which the TCEQ will consider in determining whether to revise and/or issue the permit and in determining the accuracy and completeness of the permit. Any person may attend this meeting and submit written or oral comments. The hearing will be conducted in accordance with the Texas Clean Air Act §382.0561, as codified in the Texas Health and Safety Code, and 30 TAC §122.340.

Written comments should include (1) your name, address, and daytime telephone number, and (2) the draft permit number found at the top of this notice.

A notice of proposed final action that includes a response to comments and identification of any changes to the draft permit will be mailed to everyone who submitted: written comments and/or hearing requests, attended and signed in at the hearing, or requested to be on the mailing

list for this application. This mailing will also provide instructions for public petitions to the U.S. Environmental Protection Agency (EPA) to request that the EPA object to the issuance of the proposed permit. After receiving a petition, the EPA may only object to the issuance of a permit which is not in compliance with applicable requirements or the requirements of 30 TAC Chapter 122.

Mailing List. In addition to submitting public comments, a person may ask to be placed on a mailing list for this application by sending a request to the TCEQ Office of the Chief Clerk at the address above. APPLICATION. Lavon 333 LLC and Royal Texas Investors LLC, 3555 Timmons Lane, Suite 1440, Houston, Texas 77027, has applied to the Texas Commission on Environmental Quality (TCEQ) for new Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0016915001, to authorize the discharge of treated domestic wastewater at a daily average flow not to exceed 71,750 gallons per day.

TCEQ received this application on December 4, 2025.

DESCRIPTION OF FACILITY AND LOCATION OF THE DISCHARGE ROUTE. The facility will be located approximately 3,500 feet east of the intersection of Farm-to-Market Road 6 and County Road 544, in Collin County, Texas 75173. The treated effluent will be discharged to an unnamed tributary, thence to Bear Creek, thence to the Camp Creek portion of Lake Ray Hubbard in Segment No. 0820 of the Trinity River Basin. In accordance with 30 Texas Administrative Code §307.5 and the TCEQ's *Procedures to Implement the Texas Surface Water Quality Standards* (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action.

Numerical and narrative criteria to protect existing uses will be maintained. This review has preliminarily determined that no water bodies with exceptional, high, or intermediate aquatic life uses are present

within the stream reach assessed; therefore, no Tier 2 degradation determination is required. No significant degradation of water quality is expected in water bodies with exceptional, high, or intermediate aquatic life uses downstream, and existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received. 2.0 Determination of Prize Winners. The determination of prize winners is subject to the general Scratch Ticket validation requirements set forth in Texas Lottery Rule 140.302, Scratch Ticket Game Rules, these Game Procedures, and the requirements set out on the back of each Scratch Ticket. A prize winner in the "ELECTRIC 10s" Scratch Ticket Game is determined once the latex on the Scratch Ticket is scratched off to expose twenty-four (24) Play Symbols. ELECTRIC 10s PLAY INSTRUCTIONS: If a player reveals a "LIGHT BULB" Play Symbol, the player wins the PRIZE for that symbol instantly. If the player reveals a "10X" Play Symbol, the player wins 10 TIMES the PRIZE for that symbol.

ELECTRIC BONUS PLAY INSTRUCTIONS: If the player reveals 2 matching prize amounts in the same ELECTRIC BONUS play area, the player wins that amount. No portion of the Display Printing nor any extraneous matter whatsoever shall be usable or playable as a part of the Scratch Ticket.

However, the Executive Director of the Texas Lottery ("Executive Director") may, solely at the Executive Director's discretion, refund the retail sales price of the Scratch Ticket. In the event a defective Scratch Ticket is purchased, the only responsibility or liability of the Texas Lottery shall be to replace the defective Scratch Ticket with another unplayed Scratch Ticket in that Scratch Ticket Game (or a Scratch Ticket of equivalent sales price from any other current Texas Lottery Scratch Ticket Game) or refund the retail sales price of the Scratch Ticket, solely at the Executive Director's discretion.

Notwithstanding any name or names submitted on a claim form, the Executive Director shall make payment to the player whose signature appears on the back of the Scratch Ticket in the space designated. If more than one name appears on the back of the Scratch Ticket, the Executive Director will require that one of those players whose name appears thereon be designated by such players to receive payment.
