Texas Education Agency

Request for Applications Concerning the 2026-2027 Nita M. Lowey 21st Century Community Learning Centers (CCLC), Cycle 13, Year 1 Grant Program

Filing Authority. The availability of grant funds under Request for Applications (RFA) #701-26-109 is authorized by Public Law 114-95, Elementary and Secondary Education Act of 1965, as amended by Every Student Succeeds Act (ESSA), Title IV, Part B (20 U.S.C. §§7171-7176).

Eligible Applicants. Texas Education Agency (TEA) is requesting applications under RFA #701-26-109 from eligible applicants, which include local educational agencies, including independent school districts, open-enrollment charter schools, and regional education service centers; community-based organizations, including faith based organizations; Indian tribe or tribal organization (as such terms are defined in the Indian Self-Determination and Education Act (25 U.S.C. 450b), §4); other public or private entities; or a consortium of two or more eligible organizations. Applications must propose to serve campuses that are eligible for schoolwide programs under ESSA, §1114, and the families of such students. A campus is ineligible to be included in a funded application if it meets either of the following conditions: the campus or school was newly opened in the school year 2025-2026 or the campus is a center or center feeder in an active Texas 21st CCLC, Cycle 12 grant program. If an eligible applicant includes one or more ineligible campuses or feeder campuses, TEA may deem the entire application ineligible for peer review. Each eligible applicant may submit only one application for funding up to 10 centers.

Description. The federal Nita M. Lowey 21st CCLC program supports the creation of community learning centers that provide academic enrichment opportunities during non-school hours for children, particularly students who attend high-poverty and low-performing schools. The program helps students meet state and local student standards in core academic subjects, such as reading and math; offers students a broad array of enrichment activities that can complement their regular academic programs; and offers literacy and other educational services to the families of participating children.

Dates of Project. The 2026-2027 Nita M. Lowey 21st CCLC, Cycle 13, Year 1 grant program will be implemented during the 2026-2027 school year. Applicants should plan for a grant start date of no earlier than September 1, 2026, and an ending date of no later than August 31, 2027.

Project Amount. Approximately \$52 million is available for funding the 2026-2027 Nita M. Lowey 21st CCLC, Cycle 13, Year 1 grant program. It is anticipated that approximately 40 grants will be awarded ranging in amounts from \$150,000 to \$2 million each year of the five-year grant cycle. Annual funding after Year 1 ("continuation funding") is contingent on satisfactory progress of prior year compliance with requirements, achievement of stated service and performance targets, general budget approval by the commissioner of education, and appropriations by the United States Congress. Continuation funding requires grantees to submit a noncompetitive continuation grant application each year of the total subgrant period. The noncompetitive continuation grant process requires grantees to conduct an annual needs assessment and use the results of the assessment, TEA monitoring and evaluation, and other relevant data to propose specific improvement strategies designed to increase student outcomes. This project is funded 100% with federal funds.

Selection Criteria. Applications will be selected based on the ability of each applicant to carry out all requirements contained in the RFA. Peer reviewers will evaluate applications based on the overall quality and validity of the proposed grant programs and the extent to which the applications address the primary objectives and intent of the project. Applications must address each requirement as specified in the RFA to be considered for funding. TEA reserves the right to select from the highest-ranking applications those that address all requirements in the RFA.

TEA is not obligated to approve an application, provide funds, or endorse any application submitted in response to this RFA. This RFA does not commit TEA to pay any costs before an application is approved. The issuance of this RFA does not obligate TEA to award a grant or pay any costs incurred in preparing a response.

Applicants' Conference. A pre-recorded webinar will be released on December 5, 2025, by 4:00 p.m. Questions relevant to the RFA may be emailed to Sarah Daly at 21stCentury@tea.texas.gov prior to 5:00 p.m. (Central Time) by November 21, 2025. These questions, along with other information, will be addressed during the webinar. The applicants' conference webinar will be open to all potential applicants and will provide general and clarifying information about the grant program and the RFA.

Requesting the Application. The complete RFA will be posted on the TEA Grant Opportunities web page at <https://tea4avalonzo.tea.state.tx.us/GrantOpportunities/forms/GrantProgramSearch.aspx> for viewing beginning November 14, 2025. In the "Search Options" box, select the name of the RFA from the drop-down list. Scroll down to the "Application and Support Information" section to view and download all documents that pertain to this RFA. The application, including all required attachments, will be completed and submitted through eGrants. Refer to the Program Guidelines of this RFA for more information.

Further Information. In order to make sure that no prospective applicant obtains a competitive advantage because of acquisition of information unknown to other prospective applicants, any and all questions must be submitted in writing to 21stCentury@tea.texas.gov, the TEA email address identified in the Program Guidelines of the RFA, no later than Friday, December 12, 2025. All questions and the written answers thereto will be posted on the TEA Grant Opportunities web page in the format of Frequently Asked Questions (FAQs) by Friday, December 19, 2025. In the "Search Options" box, select the name of the RFA from the drop-down list. Scroll down to the "Application and Support Information" section to view all documents that pertain to this RFA.

Deadline for Receipt of Applications. Applications must be received in eGrants by 11:59 p.m. (Central Time), Monday, February 2, 2026, to be eligible to be considered for funding. TEA will only accept applications submitted through the TEA eGrants system for this opportunity.

Correction of Error

The State Board for Educator Certification proposed amendments to 19 TAC Chapter 229 in the August 15, 2025 issue of the *Texas Register* (50 TexReg 5296).

Due to an error as submitted by the Texas Education Agency, the cross reference to Chapter 228 in 19 TAC §229.4(a)(4)(A)(i) did not follow *Texas Register* style. The text should have read as follows:

(i) For the 2023-2024 and 2024-2025 academic years, individuals will be evaluated against the frequency and duration requirements in Chapter 228 of this title (relating to Requirements for Educator Preparation Programs) [; Subchapter F, of this title (relating to Support for Candidates During Required Clinical Experiences)] that were effective August 31, 2024.

APPLICATION AND PRELIMINARY DECISION. Fermi Equipment Holdco, LLC, 600 South Tyler Street, Suite 1501, Amarillo, Texas 79101-2351, has applied to the Texas Commission on Environmental Quality (TCEQ) for issuance of proposed State Air Quality Permit 181009, issuance of Prevention of Significant Deterioration (PSD) Air Quality Permit PSDTX1670, and issuance of Greenhouse Gas (GHG) PSD Air Quality Permit GHGPSDTX254 for emissions of GHGs, which would authorize construction of an electric generating plant located at located approximately 15 miles northeast of Amarillo, along US Highway 60, near the intersection of U.S. Highway 60 and Farm-to-Market Road 2373, on north side of the road, Amarillo, Carson County, Texas 79101. This application was processed in an expedited manner, as allowed by the commission's rules in 30 Texas Administrative Code, Chapter 101, Subchapter J. **AVISO DE IDIOMA ALTERNATIVO.** El aviso de idioma alternativo en español está disponible en <https://www.tceq.texas.gov/permitting/air/new-sourcereview/airpermits-pendingpermit-apps>. The proposed facility will emit the following air contaminants in a significant amount: carbon monoxide, nitrogen oxides, organic compounds, particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and sulfur dioxide. In addition, the facility will emit the following air contaminants: ammonia, hazardous air pollutants, hydrogen sulfide and sulfuric acid mist.

The degree of PSD increment predicted to be consumed by the proposed facility and other increment-consuming sources in the area is as follows:

PM₁₀

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
24-hour	11	30
Annual	4	17

Nitrogen Dioxide

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
Annual	3	25

PM_{2.5}

Maximum Averaging Time	Maximum Increment Consumed (µg/m³)	Allowable Increment (µg/m³)
24-hour	7.4	9
Annual	2	4

This application was submitted to the TCEQ on August 1, 2025. The executive director has determined that the emissions of air contaminants from the proposed facility which are subject to PSD review will not violate any state or federal air quality regulations and will not have any significant adverse impact on soils, vegetation, or visibility. All air contaminants have been evaluated, and "best available control technology" will be used for the control of these contaminants.

The executive director has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The permit application, executive director's preliminary decision, draft permit, and the executive director's preliminary determination summary and executive director's air quality analysis, will be available for viewing and copying at the TCEQ central office, the TCEQ Amarillo regional office, and at the Carson County Public Library, 401 Main Street, Panhandle, Carson County, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Amarillo Regional Office, 5809 South Western Street, Suite 260, Amarillo, Texas. The application, including any updates, is available electronically at the following webpage: <https://www.tceq.texas.gov/permitting/air/airpermit-applications-notices>.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments to the Office of the Chief Clerk at the address below. **The TCEQ will hold a public meeting on this application because it was requested by local legislators.** The TCEQ will consider all public comments in developing a final decision on the application. A public meeting will be held and will consist of two parts, an Informal Discussion Period and a Formal Comment Period. A public meeting is not a contested case hearing under the Administrative Procedure Act. During the Informal Discussion Period, the public will be encouraged to ask questions of the applicant and TCEQ staff concerning the permit application. The comments and questions submitted orally during the Informal Discussion Period will not be considered before a decision is reached on the permit application, and no formal response will be made. Responses will be provided orally during the Informal Discussion Period. During the Formal Comment Period on the permit application, members of the public may state their formal comments orally into the official record. At the conclusion of the comment period, all

formal comments will be considered before a decision is reached on the permit application. A written response to all formal comments will be prepared by the executive director and will be sent to each person who submits a formal comment or who requested to be on the mailing list for this permit application and provides a mailing address. Only relevant and material issues raised during the Formal Comment Period can be considered if a contested case hearing is granted on this permit application.

The Public Meeting is to be held:

Thursday, December 4, 2025, at 7:00 p.m.

Carson County War Memorial

500 Main Street

Panhandle, Texas 79068

You may request a contested case hearing regarding the portions of the application for **State Air Quality Permit Number 181009 and for PSD Air Quality Permit Number PSDTX1670**. There is no opportunity to request a contested case hearing regarding the portion of the application for **GHG PSD Air Quality Permit Number GHGPSDTX254**. A person who may be affected by emissions of air contaminants, other than GHGs, from the facility is entitled to request a hearing. A contested case hearing request must include the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number; (2) applicant's name and permit number; (3) the statement "I/we request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; (6) a description of how you use the property which may be impacted by the facility; and (7) a list of all disputed issues of fact that you submit during the comment period. If the request is made by a group or association, one or more members who have standing to request a hearing must be identified by name and physical address. The interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.

A contested case hearing will only be granted based on disputed issues of fact or mixed questions of fact and law that are relevant and material to the Commission's decisions on the application. The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. Issues that are not submitted in public comments may not be considered during a hearing.

Notice of Availability of the Draft 2026 Texas Integrated Report of Surface Water Quality for the Federal Clean Water Act, §305(b) and §303(d)

The Texas Commission on Environmental Quality (TCEQ or commission) announces the availability of a draft of the *2026 Texas Integrated Report of Surface Water Quality* (IR), for review and comment by the public starting November 14, 2025, through December 13, 2025 (comment period). The IR is developed and submitted to the United States Environmental Protection Agency (EPA) for approval as a requirement of the federal Clean Water Act, §305(b) and §303(d). The IR is an overview of the status of surface water bodies in Texas. Factors considered in evaluating the status of surface water bodies include concerns for public health, viability for use by aquatic species and other wildlife, and specific pollutants and their potential sources. The IR includes summaries of Texas water bodies that do not support beneficial uses or water quality criteria and those water bodies that demonstrate cause for concern. The IR supports TCEQ water quality standards revisions, total maximum daily loads, watershed protection plans, water quality management activities including monitoring, and best management practices to control pollution sources.

Draft 2026 IR Information

The draft 2026 IR will be available on TCEQ's website at the following address: https://www.tceq.texas.gov/waterquality/assessment/public_comment.

Information regarding the public comment period may also be found at the above web address. Review and comment on individual waterbodies and the summaries, as described in the draft 2026 IR found at the web address above, are encouraged until the end of the comment period on December 13, 2025.

After the public comment period for the draft 2026 IR ends on December 13, 2025, the TCEQ will evaluate all comments received. Changes made in response to any comments submitted, will be reflected in the draft 2026 IR that will be submitted to the United States Environmental Protection Agency (EPA) for approval.

Public Comments

TCEQ will respond to comments received during the comment period in a "Response to Comments" document (RTC). The RTC and the draft 2026 IR will be posted on the website when TCEQ sends the draft 2026 IR to EPA. Comments must be submitted in writing, via e-mail, post, or special delivery by 5:00 p.m. on December 13, 2025, and will not be accepted by phone.

Notice issued October 29, 2025

TCEQ Internal Control No. D-09292025-041: Milrose Properties Texas, LLC, a Texas limited liability company, (Petitioner) filed a petition with the Texas Commission on Environmental Quality (TCEQ) for the annexation of land into Guadalupe County Municipal Utility District No. 6 (District) under Local Government Code Section (§)42.042 and the procedural rules of the TCEQ. The petition states that: (1) the Petitioner holds title to all the property in the proposed annexation area to be included in the District; (2) there are no lienholders on the property to be annexed into the District; (3) the proposed property annexation will contain approximately 70.11 acres located

within Guadalupe County; and (4) all of the land within the proposed property annexation is within the extraterritorial jurisdiction of the City of Santa Clara, Texas (City). The property proposed for annexation is located southwest of the existing District boundary. Access to the annexation tract will be by Weil Road on the southern boundary of the annexation tract. In accordance with Texas Local Government Code §§42.0425 and 42.042, the Petitioner submitted a petition to the City, requesting the City's consent to the annexation of land into the District. Information provided indicates that the City did not consent to the inclusion of the land into the District's area. After the 90-day period passed without receiving the City's consent to the annexation, the Petitioner submitted a petition to the City requesting the City provide water and sanitary sewer services to the proposed annexation area. The 120-day period for reaching a mutually agreeable contract expired and the information provided indicates that the Petitioner and the City have not executed a mutually agreeable contract for service. Pursuant to Texas Local Government Code §42.042, failure to execute such an agreement constitutes authorization for the Petitioner to initiate proceedings to include the proposed annexation area into the District.

Notice of Public Meeting and Proposed Renewal with Amendment of General Permit TXR050000 Authorizing the Discharge of Stormwater Associated with Industrial Activities

The Texas Commission on Environmental Quality (TCEQ or commission) is proposing to renew and amend Texas Pollutant Discharge Elimination System General Permit TXR050000. This general permit authorizes the discharge of stormwater associated with industrial activities and certain non-stormwater discharges into surface water in the state. The proposed general permit applies to the entire state of Texas. General permits are authorized by Texas Water Code, §26.040.

PROPOSED GENERAL PERMIT. The executive director has prepared the proposed general permit renewal with amendments of an existing general permit that authorizes the discharge of stormwater and certain non-stormwater discharges from industrial activities that are categorized into 30 similar sectors based on Standard Industrial Classification Codes and Industrial Activity Codes into surface water in the state. The proposed changes to the general permit are included in this proposed general permit and described in the fact sheet.

The general permit specifies which facilities must obtain permit coverage, which are eligible for a conditional exclusion based on a certification of no-exposure of the industrial activity to stormwater, which are designated as eligible for coverage without submitting a Notice of Intent, and which must obtain individual permit coverage. Non-stormwater discharges that are not specifically listed in the general permit are not authorized by the general permit. No significant degradation of high-quality waters is expected, and existing uses will be maintained and protected.

The executive director has reviewed this action for consistency with the goals and policies of the Texas Coastal Management Program (CMP) according to General Land Office regulations and has determined that the action is consistent with applicable CMP goals and policies.

On the date that this notice is published, a copy of the proposed general permit and fact sheet will be available for a minimum of 30 days for viewing and copying at the TCEQ Office of the Chief Clerk located at the TCEQ Austin office, at 12100 Park 35 Circle, Building F. These documents will also be available at the TCEQ's 16 regional offices and on the TCEQ website at <https://www.tceq.texas.gov/permitting/stormwater/industrial>. The purpose of a public meeting is to provide the opportunity to submit written or oral comments or to ask questions about the proposed general permit. A public meeting is not a contested case hearing.

The hybrid in-person and virtual public meeting will be held Monday, December 15, 2025, at 1:30 p.m. in TCEQ's complex at 12100 Park 35 Circle, Building E, Room 201S, Austin, Texas 78753.

APPROVAL PROCESS. After the comment period, the executive director will consider all the public comments and prepare a written response. The response will be filed with the TCEQ Office of the Chief Clerk at least 10 days before the scheduled commission meeting when the commission will consider approval of the general permit. The commission will consider all public comments in making its decision and will either adopt the executive director's response or prepare its own response to the comments. The commission will issue its written response to comments at the same time the commission issues or denies the general permit. A copy of any issued general permit and response to comments will be made available to the public for inspection at the agency's Austin office. A notice of the commission's action on the proposed general permit and information on how to access the response to comments will be mailed to each person who submitted a comment. Also, a notice of the commission's action on the proposed general permit and the text of its response to comments will be published in the *Texas Register*.

Update to the Water Quality Management Plan (WQMP)

The Texas Commission on Environmental Quality (TCEQ or commission) requests comments from the public on the draft October 2025 Update to the WQMP for the State of Texas.

Download the draft October 2025 WQMP Update at https://www.tceq.texas.gov/permitting/wqmp/WQmanagement_updates.html or view a printed copy at the TCEQ Library, Building A, 12100 Park 35 Circle, Austin, Texas.

The WQMP is developed and promulgated in accordance with the requirements of the federal Clean Water Act, Section 208. The draft

update includes projected effluent limits of specific treated domestic wastewater dischargers, which may be useful for planning in future permit actions. The draft update may also contain service area populations for listed wastewater treatment facilities, designated management agency information, and total maximum daily load (TMDL) revisions.

Once the commission certifies a WQMP update, it is submitted to the United States Environmental Protection Agency (EPA) for approval. For some Texas Pollutant Discharge Elimination System (TPDES) permits, the EPA's approval of a corresponding WQMP update is a necessary precondition to TPDES permit issuance by the commission.

Location: The project would affect waters of the United States and navigable waters of the United States associated with the Roberts Mueller Unit (RMU) of the Jocelyn Nungaray National Wildlife Refuge (JNNWR). The project area is located in the RMU of the JNNWR, approximately 14 miles south of Stowell, Texas and 1.7 miles west-northwest of the city of High Island, Texas; in Chambers County, Texas.

Latitude and Longitude: 29.584048, -94.423412

Project Description: To create, restore, and enhance coastal wetlands in two separate cells within the RMU of the JNNWR. The applicant requests authorization to create, restore, and enhance wetlands within the RMU of the JNNWR through Beneficial Use of Dredge Material (BUDM). Dredged material will be obtained from U.S. Army Corps of Engineers maintenance dredging of the Gulf Intracoastal Waterway and placed in two separate cells (Cell A and Cell B), restoring and/or enhancing a total of 540.11 acres of deteriorated marsh habitat. Specifically, Cell A is 296.60 acres with 163 acres enhanced and 129 acres restored by BUDM. Cell B is a total of 248.99 acres with 37 acres enhanced and 211.11 acres restored with BUDM.

The work associated with the restoration activity will consist of two main actions. The first action will be to create perimeter berms to a top elevation of 2.5' above grade around each of the proposed cells for containment of BUDM. The second will be placing hydraulically dredged material for beneficial use purposes to restore soil elevations within the cells to a level that will support emergent wetland plants to a target elevation of 1.4' above grade. Each placement cell will have at least one cross levee, dividing it into smaller sections for purposes of containment. Dredged material would provide fill for the two placement cells and the containment levees would be built from material collected from borrows within the interior of the cells, to be filled in with placed dredged material.

The applicant has provided the following explanation why compensatory mitigation should not be required: No compensatory mitigation is proposed for this project since there is no permanent loss of waters of the U.S. The project is restorative in nature and will increase the function and value of the current wetland habitat.

Type of Application: U.S. Army Corps of Engineers permit application #SWG-2025-00039. This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act.

CMP Project No: 26-1024-F2

Federal License and Permit Activities:

Applicant: Natural Gas Pipeline Company of America LLC (NGPL)

Location: The project would affect waters of the United States associated with Keith Lake / Sabine Neches Waterway and is located within palustrine wetlands approximately 2.1 miles northwest of Sabine Pass, in Jefferson County, Texas.

Latitude and Longitude: 29.747402, -93.925117

Project Description: The overall project purpose is to expand the transportation volume with an additional 500,000 dekatherms per day of natural gas across the NGPL Louisiana Lines No. 1 and No. 2 to provide more opportunity and flexibility to the natural gas and LNG facilities across the Texas/Louisiana Gulf Coast markets. The applicant requests authorization to permanently fill approximately 1 acre of palustrine emergent wetland with an additional 3.36 acres of temporary impact to previously stated wetland. The project will consist of a new natural gas meter station, which will include a single sixteen-inch ultrasonic meter assembly, flow control and tap assembly, and 16-inch pipeline, to be made at the request of Trident Interstate Pipeline, LLC for the ability to accept gas nominations from the Trident mainline, into the NGPL Louisiana No. 1 and No. 2 mainlines.

The applicant offered the following compensatory mitigation plan to offset unavoidable functional loss to the aquatic environment: The applicant proposes to purchase approximately 0.666 physical functional capacity units (FCUs), 0.583 FCUs, and 0.680 FCUs from the Anahuac Wetlands Mitigation Bank.

Type of Application: U.S. Army Corps of Engineers permit application # SWG-2025-00592. This application will be reviewed pursuant to Section 404 of the Clean Water Act. Note: The consistency review for this project may be conducted by The Railroad Commission of Texas as part of its certification under §401 of the Clean Water Act. The U.S. Army Corps of Engineers Galveston District has found that this permit request meets the terms of Executive Order 14156 and is therefore subject to special emergency permitting procedures and an expedited review process.

Criminal History Requirements for Child Care Operations

(Editor's note: In accordance with Texas Government Code, §2002.014, which permits the omission of material that is "cumbersome, expensive, or otherwise inexpedient," the charts are not included in the print version of the Texas Register. The charts are available in the online version of the November 14, 2025, issue of the Texas Register.)

26 Texas Administrative Code §745.661 (relating to What types of criminal convictions may affect a subject's ability to be present at an operation?) states that HHSC will review the three charts listed in subsection (a) of the section annually and publish any changes for public comment in the *Texas Register* as an "In Addition" document. Questions or comments about the content of the proposed changes may be directed to Child Care Regulation at (512) 438-3269.

Written comments may be submitted by email to CCR-Rules@hhs.texas.gov or mailed to:

Child Care Regulation, Health and Human Services Commission

P.O. Box 149030

Mail Code E550

Austin, Texas 78751

Any comments must be received within 30 days of publication in the *Texas Register*.

The three charts are titled: (1) Licensed or Certified Child Care Operations: Criminal History Requirements; (2) Foster or Adoptive Placements: Criminal History Requirements; and (3) Registered Child Care Homes and Listed Family Homes: Criminal History Requirements.

Each chart has three parts: (1) an introduction that identifies the types of operations each chart covers, defines certain terms used in the chart, and clarifies certain assumptions; (2) a Table of Contents; and (3) the applicable chart.

Changes made to the charts include:

- (1) Updates to reflect current statutes and regulatory guidance concerning background checks; and
- (2) Nonsubstantive changes that do not affect the outcome of background checks or the assumptions that apply to the charts.

The changes are in addition to the changes HHSC previously proposed on January 24, 2025, in the *Texas Register* (50 TexReg 583) and made available on the Child Care Regulation public website. For the proposal in January 2025, the written public comment period closed on February 23, 2025. HHSC received one comment from a licensed administrator. The comment relates to Penal Code §42.01(a)(7)-(11) Disorderly Conduct in all three charts. A summary of this comment and HHSC's response are as follows:

COMMENT: One commenter recommended changing the response to Penal Code §42.01(a)(7)-(11) Disorderly Conduct in all three charts by requiring a risk evaluation for Class A and B misdemeanors if the conviction was in the last 10 years and not requiring a risk evaluation for Class C misdemeanors.

RESPONSE: HHSC disagrees with the comment and declines to revise the charts with regard to Penal Code §42.01(a)(7)-(11) Disorderly Conduct. Each offense described in Penal Code §42.01(a)(7)-(11) reflects an impulsive act involving a firearm or inappropriate sexual behavior that merits a risk evaluation regardless of how long ago the conviction occurred.

This hearing will be conducted both in person and as an online event. To join the hearing from your computer, tablet, or smartphone, register for the hearing in advance using the following registration URL:

<https://attendee.gotowebinar.com/register/3627643353678750046>

After registering, you will receive a confirmation email containing information about joining the webinar. Instructions for dialing in by phone will be provided via email after you register.

Members of the public may attend the rate hearing in person, which will be held at the North Austin Complex Building, Public Hearing Room 1.401, 4601 W. Guadalupe St., Austin, Texas 78751. A recording of the hearing will be archived and accessible on demand at <https://hhs.texas.gov/about-hhs/communications-events/live-archived-meetings> under the "Archived" tab. The hearing will be held in compliance with Texas Human Resources Code section 32.0282, which requires public notice of and hearings on proposed Medicaid reimbursements.

Any updates to the hearing details will be posted on the HHSC website at <https://www.hhs.texas.gov/about/meetings-events>.

Proposal. HHSC proposes the federal fiscal year (FFY) 2026 payment rate actions for Medicaid Community Hospice for routine home care, continuous home care, inpatient respite care, general inpatient care services, the service intensity add-on, and physician services rates. These increased payment rates will be in accordance with the federal hospice payment regulations located in Title 42 of the Code of Federal Regulations (CFR), Part 418, Subpart G, and effective retroactive to October 1, 2025.

Methodology and Justification. The proposed payment rate actions for Medicaid Community Hospice were calculated in accordance with Section 1814(i)(1)(C)(ii) of the Social Security Act, which outlines annual increases in payment rates for hospice care services. Rates for hospice physician services are not increased under this provision. Payment for Physician Services under the Medicaid Hospice Program is aligned with Medicaid hospice rates that are calculated using the Medicare hospice methodology. Payment rates for this program are calculated based on annual hospice rates established by the Centers for Medicare and Medicaid Services (CMS). 42 CFR 418.306(c) requires Medicaid hospice payment rates to be adjusted every federal fiscal year by the wage index data issued by CMS as published in the *Federal Register*.
